### Shamir Says Israel May Not Quit Lebanon

By David K. Shipler

New York Times Service JERUSALEM - Foreign Minister Yitzhak Shamir told parliament Wednesday that "Israel will be free to act as it sees fit" if Syria and the Palestine Liberation Organization refuse to withdraw from Lebanon. He gave no hint of what course Israel might take in the face of such a refusal, but most specula-

tion bere has discounted the possibility of an Israeli attack on Syrian

Mr. Shamir, briefing the Knes-set, or parliament, on the tentative security accord reached last week with Lebanon, did not deal directly with the risk of war. But he expressed the hope that the Syrian re-

jection of the agreement would be followed by a more moderate re-The withdrawal of Israeli forces to the international border," he said, "is conditional on the return of all prisoners, those missing in action and the bodies of Israeli dead held by the PLO and Syria, and on the complete withdrawal of the terrorists and Syrians from all

of Lebanese territory. If these con-ditions are not met, the agreement will be considered suspended, and Israel will be free to act as it sees fit and according to its interests."
The Israelis often refer to the PLO guerrillas as "terrorists." Mr. Shamir said he hoped Syria would "choose the road of stability and fulfill her obligations to re-

move her army from Lebanon's Some officials in Jerusalem have spoken privately of a "redeploy-ment" of the Israeli Defense gua whether they were aware of the activities of the special Pentagon unit and that each had said no. three ministries in the oew govern-

Austria's political leaders, is ex-

forming the new government.

We have achieved a result

which makes possible the formation of a stable majority in a new government," Mr. Fischer said, He said both sides had made concessions, the Socialists amending planned personal taxation measures, and the Freedom Party modifying its opposition to construc-tion of a new conference center in Vienna, which they had criticized

as wasteful. The negotiations concentrated on economic issues, since the Freedom Party, representing middleclass voters and the interests of small- and medium-sized businesses, had opposed aspects of the So-cialists' financial, hudget and taxa-

tion plans.
Mr. Fischer said the Socialist goal of full employment would remain the key aim of economic policy and that there would be on change in Austria's foreign policy

of active neutrality. The coalition seemed assured last week after both parties rebuffed approaches by the conservative People's Party, which asserted that a gain of four seats in the elections entitled it to a major role in

the government.

Mr. Fischer said he was convinced the coalition would last the full four-year legislative term. To take effect, the negotiated agreements must be formally en-

dorsed by the leadership of both Mr. Steger, 39, the youngest of parties, but this was not expected to pose any major problems.

By Paul Lewis

PARIS - Two leading internaoonal economic groups will join forces in a new attack on world protectionism through an agree-ment reached between officials of the Ressan Administration and Tuesday night, European monetary other Western countries at a dinner

The groups are the international Monetary Fund, which is responsible for the smooth working of the world's monetary system, and the Geneva-based General Agreement on Tariffs and Trade, which oversees international trade.

The dinner and the working meeting that followed it Wednesday morning, these sources say, produced broad agreement on a U.S. plan to bolster world economic ic recovery by setting up a new institution charged with stitution charged with expanding trade and heading off a Third World debt crisis that could lead to the collapse of the Western banking system.

However, the new institution orobably will not take the form the Reagan administration originally auggested. The most likely decision now, European and U.S. officials ay, will be to invite trade ministers o future meetings of an existing fi-. rancial body known as the Group of 10, which brings together the inance ministers of the 10 richest-Western nations and Switzerland.

The heads of the IMF, the JATT and the Paris-based Organiation for Economic Cooperation and Development, which monitors he Western economic performnce, would also arrend.

. Such an enlarged Group of 10. ould provide a forum in which ae major Western countries could sek to integrate more closely their conomic and trade policies, as the inited States wants, and oversee ne planned new offensive against rotectionism. The basic aim of the ew group would be to ensure that. estrictive trade measures do not park a new Third World debt cris and destroy hopes of a world COVERY.

Originally, the United States anted to give this responsibility a new body to include trade and nance ministers from the seven Western economic summit meet-

were invited at the last mi and the OECD also attended.

(Continued on Page 2, Col. 6)

Brock, the U.S. special trade repre-sentative, described the talks as "a great success" and "long overdue."

### U.S. House Panel Votes To Increase Israel Aid

By Margot Homblower

Washington Post Service
WASHINGTON — The House Foreign Affairs Committee has voted 18-5 to increase military grants to Israel by \$300 millioo more than President Ronald Reagan had requested in his 1984

budget. The House action Tuesday followed the Senate Foreign Relations Committee's approval last week of a package of \$1.7 billion in aid to Israel, \$300 million more than the administration had sought. Both votes came at a delicate time in ocgotiations over the withdrawal of Israeli and Syrian troops from Leb-

Representative Joel M. Pritchard, Republican of Washington, argued before the vote that Secretary of State George P. Shultz would lose flexibility in the negotiations if Congress unilaterally in-

creased the grants.
Mr. Pritchard had sponsored an unsuccessful amendment to keep aid to Israel at \$550 million in military grants and \$1.15 billion in military loans, as the administration had proposed.

"There's always been the feeling, that in Congress, Israel has enough support to checkmate any administrative initiative." Mr. Pritchard said. "The administration can't call

the tune of American policy."
Representative George W.
Crockett Jr., Democrat of Michigan, added that the increase in grants "frees additional capital for Begin to continue building settlements in the occupied territory." His statement reflected congressional uneasiness over Prime Minbeen terminated; that both sides recognize their rights and obliga-

ister Menachem Begin's policy on negotiators for six hours Monday and spent most of Tuesday in Opponents of the Priichard amendment said that \$850 million

in grants was essential because of increased Soviet aid to Syria. Representative Stephen J. Solarz, Democrat of New York, said a lesser grant to Israel would be seen as "as a failure to recognize the signifi-cance of their concessions" in negotiations over troop withdrawals from Lebanon.

dollars in 1983."

In all, Israel would receive \$1.7 billion in military loans and grants and \$850 million in economic aid under the House bill. That is more than any other country receives.

military aid to Greece or Turkey at the end of fiscal 1986 if they have more troops on Cyprus than allowed by a 1959 treaty.

and economic assistance to Turkey, I don't think it is asking too much for Turkey to withdraw its troops

from Cyprus," Mr. Yatron said.

Opponents of the amendment, including the administration, argued that it would sour relations with Turkey, a key NATO ally. The previous aid embargo against Turkey was unsuccessful in achiev-

According to some Israelis, the agreement may be signed within a week if final clarifications of language are completed. Philip C. Ha-bib, the special U.S. envoy to the Middle East, talked with Israeli

The issues remaining include the precise role of Major Saad Haddad, who commands a pro-Israeli miliua in southern Lebanon. Israel wants him to command a territorial brigade of the Lebanese Army that is to be established under the accord between the Israeli border and the Zaharani River, about 30 miles (48 kilometers) to the north.

The brigade is to include Major Haddad's militiamen and others recruited from the area; soldiers from other regions are not to be assigned to it. Lebanon has agreed to make

Major Haddad the deputy com-mander, but Israeli officials fear that he would not have enough authority to permit the continued Israeli intelligence and police work that Israel wants.

The agreement reportedly pro-vides a restricted role for United Nations troops to monitor events at Palestinian refugee camps near the coastal cities of Sidoo and The UN force, now oumbering

5,900, has patrolled southern Lebaoon since an Israeli invasion in 1978, Israel did not want the force to remain in the south because, Is-raeli officials said, it did not prevent a PLO buildup.

Nor did Israel want it guarding the refugee camps, where officials feared it could act as a screen behind which the PLO could turn the camps into bases.

the Lebanese Army would have re-

#### U.S. Officials Cite scan. **Possible Soviet** SALT Violation

WASHINGTON - The Soviet Union may have violated the SALT-2 treaty last week by testing a new intercontinental ballistic missile, sources at the Defense Department say.

It was the third test firing of a Soviet intercontinental ballistic missile since October, the U.S. sources said Tuesday. The Penta-gon sources, who asked not to be identified, said the missile fired last week bore the same characteristics as one launched in February.

Those missiles were apparently different from a new intercontinental ballistic missile fired last fall, known in the West as the SSX-24, the sources said. Moscow has reportedly told Washington that the SSX-24 would be the one oew missile that SALT-2 allows each coun-

try to develop.
In addition, CBS News reported that some officials believe the missile fired last week carried as much as twice the explosive power permitted under SALT-2. Although Congress has not ratified the treaty, the United States and the Soviet

Union have pledged to abide by it. lo April, an interagency commit-tee reported to President Ronald Reagan that the Soviet Union may have violated the treaty several times. After the report was submitted, Mr. Reagan named a panel headed by the national security said Mr. Habib was holding talks adviser, William P. Clark, to review to follow up on the tentative with- intelligence data with a view to deciding whether or not to accuse the Russians publicly of cheating.

CANNES, France — Hundreds of students briefly invaded the hall where the Cannes Film Festival was taking place Wednesday, after setting a fire at the nearby port, attacking not police and smashing the festival hall's glass door.

smasning the iestival nail's glass door.

After a scuffle, the police dispersed the students with tear gas at the entrance of the newly opened Festival Palace. The incidents occurred during the The incidents began when about 500 students protesting proposed university reforms set fire to two stacks of tires. The fire produced thick smoke at the main port, and darkened much of central

The students then marched on the festival hall. They charged riot police outside the structure and smashed the door before briefly entering the lob-

Before holding a sit-down demonstration, about 100 protesters hurled red paint across the sidewalks and the palace facades. The police took no action against them, and festival organizers post-poned afternoon film showings.

In Paris, police wielding batons dispersed about 600 law students Wednesday night in the Latin Quarter. A police spokesman said that the charge against barricades erected on the Boulevard St. Germain and Boulevard St. Michel left several

An earlier demonstration by students of the An earlier demonstration by students of the prestigious grandes écoles drew more than 2,000 protesters. The students, who are enrolled in highly selective administration, technology and military schools, marched from the Ecole Militaire, near the Eiffel Tower, through the Montparnasse district without incident.

### Dealer in Stuttgart Was 'Diaries' Source

By James M. Markham New York Times Service

HAMBURG - The journalist who discovered the phony diaries of Adolf Hitler admitted Wednesday that he had acquired them from a Nazi memorabilia dealer in Stuttgart, who reportedly forged them himself.

### Warsaw Rebuts Soviet Journal

WARSAW (LAT) — A newspaper identified with one of General Wojciech Januzelski's closest advisers said Wednesday that an "unprecedented" attack on the newspaper published in a Soviet foreign affairs magazine was based on inaccurate quotations.

The direct rebuttal by the weekly Communist Party newspaper, Polityka, in its latest issue appears to constitute a public act of defiance by the Polish authorities to what was clearly a warning from Moscow. It is considered certain that the move dealing with Soviet-Polish relations required top political clearance.

The exchange began with an attack on Polityka in the current issue of the Soviet journal New Times saying that the Polish newspaper, edited for 25 years until last September by a deputy premier, Micczyslaw Ra-kowski, propagates "riews foreign to proletarian, communist ideology."

The deputy premier is a close associate of General Jaruzelski, the Polish

#### Showdown Near on U.S. Budget

WASHINGTON (AP) — The Republican-led Senate is nearing a show-down on rival budget plans to decide whether taxes should rise signifi-

After nearly two weeks of intensive maneuvering, the majority leader.

After nearly two weeks of intensive maneuvering, the majority leader. Howard H. Baker Jr., Republican of Tennessee, said he was "mildly optimistic" Wednesday that the Senate would approve a budget plan that be backs and that Mr. Reagan reluctantly supports.

At issue is whether the sharply rising federal deficits must be met with increased taxes or whether the economic recovery should be allowed to continue without additional federal revenues despite the deficits expected to approach \$200 billion for the next four or five years.

### West Weighs Robot Ban to Russia

TOKYO (Reuters) - Western nations producing industrial robots are sticated models to the Soviet considering banning future sales of sophisticated models to the Soviet Union, Japanese industry sources said Wednesday.

The United States is believed to have urged robot producing countries.

to add robots to the list of items whose export to the Soviet Union is supervised by the West's Paris-based trade Coordinating Committee. Details of discussions have not been made available to manufacturers, the sources said, and the Japanese Ministry of Trade and Industry.

refused to comment Wednesday.

The sources said they understand that the United States wants to end transfers of technical information about high-performance robots, especially details of their control devices, or computer brains.

### **Bonn Closes Border Death Case**

BONN (Reuters) — The prosecutor investigating the April 10 death of a West German under questioning by East German border officials said-Wednesday he was closing his file on the case, satisfied that the man died

of a heart attack.

Rudolf Burkert's death caused a major dispute between the two countries and culminated in the cancellation by the East German leader, Erich Honecker, of a planned trip to Bonn later this year.

The prosecutor said there was no evidence to suggest another person was involved in the death. A pathologist's report showed Mr. Burkert, 46, died of a heart attack and that his injuries were not a contributory cause, be said.

#### Mitterrand to See Reagan May 28 PARIS (Renters) - President François Mitterrand, at odds with Wash-

ington over a range of economic issues, will hold talks with President Ronald Reagan shortly before the conference of major Western nations

opens later this month, it was announced Wednesday.

The talks are to take place on Mr. Mitterrand's arrival at Williamsburg, Virginia, on May 28, just before the start of the meeting of the seven nations, the Elysee Palace said. U.S. preparations for the conference have been at the center of a quarrel between France and the United States for the past month and led to the French boycott of a meeting of top finance and trade representatives in Paris on Wednesday.

IRA Kills Wife of British Soldier

LONDONDERRY, Northern Ireland (AP) - Two IRA gummen burst into a bome where a British soldier was visiting and fatally wounded his wife in the back after she tried to shield him, the police and the IRA said

The soldier and his sister-in-law were also wounded in the attack Tuesday night. Both were reported in stable condition after surgery. Sergeant Branch Purvis and his wife, Alice, were watching television with her sister. Nancy Wasson, and other relatives when the gunmen burst in,

The IRA said in a statement that its men intentionally shot the soldier but accidentally shot the women. "One of our volunteers was tackled by several women in the house, and in the ensuing struggle a weapon was accidentally discharged." It added: "Any family who conceal and defend refused to leave, saying he had important work in human rights to any British soldier or allow their home to be used by them must accept

#### consequences for their actions." EC Projects \$25.5-Billion Budget

BRUSSELS (Reuters) — The European Community published Wednesday a budget for 1984 of \$25.5 billion, enough to almost exhaust its funds. Nearly 65 percent of the budget goes to farm subsidies.

The document made no specific provision for a rebate to Britain that diplomats said Prime Minister Margaret Thatcher hoped would increase her chances in the British general election June 9. But officials said there were provisions to pay Britain a rebate if community governments and

the European Parliament agreed to it.

The budget leaves the EC a very small margin of maneaver, allowing for spending to within 670 million European units of account, equivalent to dollars, of the limit of its resources. It projects a 19-percent increase in allocations for regional development and a 15-percent increase in social expenditures, including job creation.

### Iran Reports Iraqi Raid on Wells

NICOSIA (Combined Dispatches) — Iraqi planes attacked the Iranian offshore Abuzar oil field in the Gulf on Wednesday, the Iranian press seency reported.

The agency did not report any damage and said the four attacking aircraft were repulsed after one of them was shot down in a fight with Iranian jets. It said the attack occurred Wednesday afternoon. An Iraqi communique carried by the Iraqi press agency reported air and sea action against the Iranians in the area. It said an Iranian vessel was attacked and destroyed, but made no mention of the oil field. Abu-

### was attached and destroyed, out made no incrition of the oil field. Abu-zar is in the northeastern corner of the Gulf near the Nowraz oilfield where wells damaged in Iraqi attacks late in February and early March are still pouring oil into the water. Nicaragua Challenges Sugar Quota

GENEVA (AP) — Nicaragua filed a formal complaint Wednesday charging that the United States has violated its commitments to free trade by imposing drastic curbs on sugar imports.

The complaint, filed under the General Agreement on Tariffs and

Trade, alleges that the U.S. decision to cut nearly 90 percent of its Nicaragnan sugar imports is incompatible with GATT rules because it was politically motivated.

Speaking at a United Nations conference, the Nicaraguan deputy for-eign trade minister, Bernardo Chamorro Cuadra, accused the United States of a new act of aggression against the Sandinist government. He said it "violated the letter and spirit of GATT" rules on world trade. Rolinde Prager, the U.S. delegate, refused to comment.

### Australian Linked to Soviet Agent

CANBERRA, Australia (AP) - Prime Minister Bob Hawke said Wednesday that a government investigation had revealed that a high-ranking former Labor Party official "either had been, or appeared to

have been, compromised by a recently expelled Soviet KGB agent.

Speaking in Parliament, Mr. Hawke said the government's national and international security subcommittee had found that the agent, Valeri Ivanov, had engaged in the "deliberate cultivation ... of the relation-ship" with David Combe. Mr. Combe, 40, was general secretary of the Labor Party from 1973-81, the first five years of which Mr. Hawke was the party's federal presi-

### dent and worked closely with him.

PARIS (UPI) — The U.S. secretary of defense, Caspar W. Weinberger, and his counterpart, Charles Hernu, met Wednesday at the Defense Min.

NAPLES (AP) — Six countries will take part in nine days of NATO maneuvers in the Mediterranean starting Monday, it was announced Wednesday. The United States, Britain, France, Italy, Turkey and Canada will provide forces for the exercise.

TOKYO (AP) - The Soviet Union will choose a new president next month, a post vacant since the death of Leonid I. Brezhnev, the editor of Pravda said Wednesday in Tokyo.

### War Powers at Issue

We are back to arguing not just about the management of foreign relations appears to be wisdom of waging war but about who decides. President Reagan has assailed a House com-mittee for prohibiting aid to a rebel army operating inside Nicaragua. But only days before, the president solemnly told Congress that his only aim was to interdict the flow of weap-

ons from Nicaragua to guerrillas in other countries. He explicitly denied any desire to violate laws or treaties or to promote the overthrow of Managua's Marxist regime. Not quite, it now turns out. Speaking more spontaneously, the president said he opposed any legal expression of those restraints, for

which the House Select Committee on Intelligence had just voted. He denounced it as an irresponsible, dangerous precedent, leaving the executive branch unable "to carry out its constitutional responsibilities."

But Congress indisputably shares those re-sponsibilities. Unless it does, practically speaking, there is no sustaining any foreign war or intervention.

The authors of the Constitution gave Congress exclusive power to "declare" war, but they well understood the likely inclination to wage undeclared war as well. As a contemporary of the founders, Justice Chase, wrote in supporting a unanimous Supreme Court in 1800: "Congress may declare a general war, or Congress may wage a limited war; limited in place, in object, in time."

The reason for this power-sharing was brilliantly anticipated by James Madison: The

committed to a Government," he wrote, because it could be "concealed or disclosed, or disclosed in such parts and at such times as will best suit particular views."

Congress reaffirmed that doctrine when it overwhelmingly enacted a War Powers Resolution in 1973. It provides that a president cannot lawfully engage American forces for more than 90 days without express authorizaoon by Congress. And special committees were established to authorize covert operations in which U.S. honor and sense were at risk. The current Congress has accepted that responsibility in approving aid to Afghan insurgents who are resisting Soviet invaders.

In grasping now for a unilateral executive war power, President Reagan ignores his own failure to make a convincing case for covert aid to any Nicaraguan emigre army. He has been ambiguous about his motives and coy about the emigres, piling confusion on contradictioo in his policy.

Neither purism oor partisanship explains why Americans see a difference between aiding "freedom fighters" in Afghanistan and rebel forces in Nicaragua. The reason is distrust of an ill-defined policy for Central America. If Nicaragua is waging a significant war against El Salvador and deserves retribution or iovasion, let the case be made openly —

-THE NEW YORK TIMES.

# Iran's Post-Khomeini Therapy Has Already Started PARIS—"The best way to ensure the future of Islam," suggested a leading preacher in "chron recently," is for Allah to grant our sloved Leader a second life in this world." be "beloved leader" is of course Ayatollah bomeini, the alling 34-year-old who presides reflecting factions in a country weary of revoice, war and repression. Vyatollah Khomeini's health has been a man's growing concern in Tehrar for the state of the strongest group coursettly maneivering to expand its rower beautiful maneivering to expand its rower be

ter of growing concern in Tehran for more than a year oow. He has not been devoting more than one or two hours a day to the affairs of state. In addition, he withdraws from time to time into what he calls "moments of seclusion" for periods of up to three weeks.

This has led some observers to conclude that the post-Khomeini era has already begun. They see the undoubted shift in domestic and foreign policies during the last 12 months as a sure sign that the ayatollah is no longer in firm control.

The scrapping of a number of radical policies, notably a land reform program and a plan to nationalize foreign trade, shows a decisive break with early revolutionary promises. The recently enacted labor code is specifically designed to encourage private sector investment by removing the fear of revolutionary measures that would force proches: The government has announced that only 51 individuals, all big businessmen under the shah, are barred from economic activity. Thou-

sands of companies taken over by the govern-ment or various revolutionary organizations are to be returned to their owners. The campaign to appease private business is combined with growing militancy against the Soviet Union, especially in regard to Afghanistan. Quiet measures are being taken to im-

This faction, now rapidly losing ground, op-poses the idea of a single successor for Ayatol-iah Khomeini as "Supreme Goude." It advo-cates separation of the religious and political duties of the "guide." The former would be as-

But the strongest group currently maneuvering to expand its power base is led by the speaker of the Islamic Assembly, Ayatolish Hashemi Rafsanjani, who is backed by the commander of the Revolutionary Guards, Mohammed Reza. Mohammed Gharazi, the oliminister, who also commands the Mojahaddin of Islam armed group, is a member of the group. Promoting Ayatollah Hossein Ali Mon-

argues that it is time to end the revolution and start reconstruction.

The Hojatich, a politico-religious group lect by Ayatollah Ali Akbar Halabi, is also engaged in the power struggle. It opposes the idea of rule by the mullahs, holding that they should act only as "moral watchdogs" of society. It is widely believed to be behind the current crack. down on pro-Moscow Communists.

. Enjoying strong links with the bazzar and the wealthier mullahs, the Hojatich coalition may in time extend to include other groups led by two former premiers, Mehdi Bazargan and Ayatollah Mohammed Reza Mahdavi-Kani Such a coalition would almost certainly win approval from the grand ayatollahs of Quin whose power is sure to increase after Ayatollah Khomeim's death. One of them, Grand Ayatollah Mohammed Reza Golpayegani, is believed to be involved in negotiations ostensibly aimed at "keeping the children of Iran together" in the post-Khomeini era.

Ayatollah Khomeini's failure to convene the

Assembly of Experts elected last year for the specific task of choosing his successor shows that no single faction has won a majority. It is now possible that the assembly will never meet

and that the eventual pattern of succession will emerge out of an increasingly bitter and potentially oldoody power struggle.

The military remains a dark horse, it is probably still wary of political involvement. But the recent dismissal of Captain Bahram Afzai, the navy commander, after a quarrel with the multiple house that the research is a probably still wary to the still ward of the still behavior that the second contract with the multiple of the still behavior that the second contract with the multiple of the still behavior that the second contract with the multiple of the second contract with lahs, shows that tension between the military and the ciergy persists.

### A Chance for Lebanon

What about Syria's rejection of the American-mediated agreement between Lebanon and Israel? It is oo academie matter, Israeli withdrawal from Lebanon is conditioned on parallel Syrian withdrawal. Thus, a Syrian veto could condemn hapless Lebanon 10 continued foreign violation. It could lead on to

an Israeli-Syrian war.

There seem to be two broad views of what the Syrians are up to. Fortunately, Secretary of State George Shultz is taking the second.

The first view is that for assorted considera tions of intra-Arab rivalry. Soviet manipulation and Syrian intrigue, Damascus is deter-mined not to quit Lebanon, even if that costs it the opportunity to negotiate on other vital Syrian interests (Golan and the Palestinian issue) and even if this course increases the risk of war with Israel. It would be embarrassing for President Hafez al-Assad to go back oo his pledge to respect a Lebanese request to withdraw. (Such a regoest has not yet been formally made.) Bot the grid of pressures, both for-eign- and self-generated, in which he is locked may keep him on his current course.

The second view holds that Syria has not so much vetoed the price that Lebanon is propared to pay for Israeli withdrawal as it has demanded to be compensated analogously for

out of joint: He cannot bear that Israel should receive more in political and security advantage for invading Lebanon than Syria should receive for having been invited in and per-formed a thankless peacekeeping task for sev-en years. Syria does not want a war with Israwhose guns sit within range of Damascus; its current huffing and puffing is meant to coovey that it would be entering negotiations from a posicion of strength.

There is oo guarantee that oegotiations will pay off. But wby yield prematurely to a fatalis-de reading that prevents the United States from making a try? At the end of the road, at best, lies a Lebanon with an Israeli-influenced sphere in the south and a Syrian-influenced sphere in the east. The Lebanese understand that this is a lot better than the condition they are enduring now, It would be "naive of us to accept the presence of 50,000 Israeli occupa-tion troops in order to refuse 50 Israeli observers as part of an international supervision committee," says Lebanese President Amin Gemayel, insisting that his country would not bow to "Arab blackmail."

Give Lebanon a chance, George Shultz said in London. That is the main point. -THE WASHINGTON POST.

PARIS — The dissolution of the communist Tudeh Party in Iran has been reported, like all events in

prove relations with the West.

that country, as if it had no bearing on the Middle East in general. But there is a potent connection, readily visible to Iranian refugees in Paris.
The Iranian connection with the rest of the Middle East runs via the war with Iraq to Syria and Saudi Arabia. It figures importantly in the difficulões Secretary of State George Shultz has experienced promoting withdrawal from Lebanon and the

Reagan plan for a settlement be-tween Israel and the Palestinians. The predominant political fact in Iran is the war against Iraq. Thousands of Iranians have been killed, but, despite early gains, the fighting seems stalemated. Various leaders just below Ayatollah Khomeini, in-cluding Prime Minister Mir Hossein Musavi, have wanted to ease off the slaughter and make an eventual settlement. The Tudeh Party, in keeping with Russia's interest in Iraq, has favored that soft line.

By Joseph Kraft

Ayatollah Khomeini, however, regards prosecution of the war as a religious duty. He sees the Iraqi leader, Saddam Hussein, as a personal enemy and an agent of the great satan," the United States. He has resisted any peace talk. The dissolution of Tudeh represents, in internal Iranian politics, a victory for the war party. It means all-out fighting will continue. For Saudi Arabia the continuing war presents multiple dangers. One is

war presents multiple dangers. One is that the fighting could easily spill over into the kingdom. A second danger, because the Saudis have been the principal supporters of Iraq, is that Iran might launch a direct strike against Sandi Arabia.

Still more important is an ideologi-cal problem. While the Sandis are on their mettle against secular attacks from the left, they have oever quite known how to handle the religious challenge that Ayatollah Khomeini presents in calling them "unfit guarduns" of the holy places.

"We don't know what language he speaks," Information Minister Mohammed Abdo Yamani said of the ayatollah when I saw him in

For Now, the Ayatollah's Spell Keeps the Middle East Tense

Riyadh a few weeks ago. Crown Prince Abdullah has a crown Prince Abdullan has a strategy for dealing with the ayatollah and the threat posed by the war. It is to work through the Syrians, who have good relations with Iran because they are at odds with Iran. The Abdullah approach, pursued on recent trips to Baghdad and Darescent trips to Baghdad and Baghdad and Baghdad and Baghdad and Baghdad Baghdad and Baghdad and

mascus, begins with mediating the tension between Iraq and Syria.

As a next step, Prince Abdullah wants the Syrians to help the Iranian moderates in limiting the war with Iraq. It would become, as he put it in a recent interview, merely a "border war." Then, when the ayatollah passed away, a settlement could be made and Saudi Arabia would be out

of the danger zone.

Those efforts to help the peace party in Iran have drawn the Sandis

closer and closer to the Syrians. Now, with the ayatollah more than ever determined to keep up the war, the Sandis have to intensify their court-ing of Damascus. But to the extent that the Saudis woo President Hafez al-Assad, they inevitably diminish their capacity to support American efforts for peace in the Middle East.

The Syrians are the principal hosts to the Soviet presence in the area. The Syrians have dug in against quick withdrawal from Lebanon. The Syrians back those elements in the Palestine Liberation Organization mone of the Arab leaders has any inwhich most strongly oppose PLO participation in the Reagan peace plan. And the Syrians apply pressure — indirectly through the PLO and directly through the PLO and directly through the PLO and directly through the PLO and provided the provided deterioration is the limit of subtraction.

the way. They keep paying subsidies to President Assad. They make excuses for the Soviet presence. They no longer press Damascus for withdrawal from Lebanon. They do not push the PLO to sign on to the Reagan plan. Far from encouraging King Hussein, they have insisted that be move not on his own, as he originally hoped, but only with the PLO. So the consequence of the continu-So the consequence of the continuing Iran-Iraq war is the devaluation of Saudi influence in the Middle East. But without Saudi money the American hand is that much weaker. Indeed, apart from fear of Israel, none of the Arab leaders has any in-

directly by military moves — on ing deterioration is the limit of wifat . King Hussein of Jordan not to paris now feasible. The events in Tehran against the world will have to live a while longer with the Iran-Iraq mary interest in saving themselves war, and with continuing tension throughout the Middle East.

### Other Opinion

Foreign Policy in Bonn Does the foreign policy portion of the West German government's program represent con-tinuity or change? The answer depends on the period one selects for comparison. If the early years of the Schmidt-Genscher coalition are considered, the continuity is almost complete. But if it is recalled that the latter days of that alliance produced a change, characterized by systematic undermining of confidence in the American alliance and continuous questioning of the NATO double-track policy, the new line can only be described as a change back again. - Neue Zürcher Zeitung (Zurich).

#### **Trading With the Soviets**

President Reagan is at present trying to strengthen his trade sanctions against the So-viet Union in ways which will be very unpopu-lar at the Williamsburg summit of industrial countries at the end of this mouth.

The proposed extension of the Export Administration Act is ill-judged. In a report this week, the Congressional Office of Technology Assessment said that embargoes aimed at punishing the Soviet Union for its actions in Afghanistan and Poland had had no major im-pact on the Soviet economy and might have hurt the U.S. economy rather more. Embargoes on trade, the report said, caused rifts in the Western alliance, gave the United States the reputation of being an unreliable supplier, and damaged individual companies.

The distinction which [Mr. Reagan] and his predecessors have drawn between high tech-nology and routine exports is no doubt valid in some cases; it would be foolish to contribute directly to Soviet military efficiency. But the distinction has been blurred by the White House itself. Grain was the weapon chosen to

chastise the invaders of Afghanistan, but the

main sufferers were [American] farmers. Evidently last year's lesson — that Europe will continue to offer and honor contracts has oot been learned. It is a basic lesson because placid East-West relations can never be guaranteed for long periods, and there will always be new excuses to interfere with trade.

Beyond the mercantile sentiment, though, is the desirability of a stronger East bloc economy, for its own sake as a stabilizer of the peace and for the sake of the people who live there. Part of the rationale for Americans' defense spending is that they can afford it and the Russians can't. Europe, however, does not unanimously go along with that view.

- The Guardian (London).

### Whitewash in Argentina

In Argentina they called it the "dirty war" a brutal campaign by the military rulers to crush leftist terrorism during the 1970s. The drive stamped ont the terrorists, but it also brought death to thousands of people who were abducted and oever seen again. Now the military junta has announced blandly that the disappearances were "acts of service" to protect the nation. The report appears to be little

more than a whitewash.

It tries to justify the use of terror tactics to fight terrorists. It tries to paper over the excesses of seven years of military rule, as the country heads toward a promised presidential election in November. Worst of all, the report simply obbterates the memory of thousands of abducted Argentines and seeks to close the record on their disappearance.

Argentines deserved far better — and the families of the thousands who disappeared still deserve an explanation of their fate.

- The Providence (Rhode Island) Journal.

Stalinism, which were different in important ways. Indeed, the Soviet government was both savior and culprit in this dual history.

in almost total obscurity.

By drawing attention to the story of Gulag survivors, I do oot wish to equate Nazism and

Nazi concentration camps oow occupy a

saved more European Jews from Nazism than any other country, first by providing sanctu-ary for hundreds of thousands of Jews flecing eastward after the German invasion of Poland in 1939, then by destroying the Nazi war machine and liberating Eastern Europe's death camps, including Auschwitz. Eight years later, after Stalin's death in

1953, the Soviet government slowly began to free its own concentration camp inmates. The process grew into a mass liberation of 7 mil-lion political prisoners or more after Khrushchev's denunciation of Stalin in February 1956. By summer, home-bound survivors, some still skeletal and wearing bits of prison garb, were a familiar sight across the country. They were survivors in the fullest sense. Unlike Nazi death camps, the Gulag's first purpose was forced labor, but working conditions, rations and other mistreatment were usually murderous, and the human result the same. By a conservative estimate, at least 12

WASHINGTON - President

By Stephen F. Cohen

The Gulag, Too, Has Survivors Who Remember

million prisoners died in the Gulag between 1936 and 1950, 3 million in the infamous Arctic camps of Kolyma alone.

To its credit, the Soviet government helped millions of Gulag survivors return to society in the 1950s with at least modest kinds of medical care, living quarters, jobs and pen-sions. While the great majority slipped back into the anonymity of Soviet society, many achieved illustrious professional careers, and some even played important political roles in the Communist Party under Khrushchev.

But many Soviet returnees also had personal problems associated with survivors of the Nazi camps — family, career and health. Many were psychologically oumbed or other-wise impaired. Some lived in constant anxiety, tormented by nightmares and everyday reminders of the Gulag. Some started new families, but refused to discuss the past with them. Often their children developed characteristic attitudes, not unlike children of survivors of the Nazi camps.

Characteristic moral and political ques-tions also obsessed many Soviet survivors: Who had survived, who had not, and why? Who had been responsible for their suffering, and why had no one helped them?

These survivors, however, returned to their own society, where millions of other citizens had been direct accomplices of Stalin's terror

or its circumstantial beneficiaries The poet Anna Akhmatova, whose own son was freed in 1956, remarked of those peo-

ple: "Now they are trembling for their names, positions, apartments, dachas. The whole calculation was that no one would return." She added, "Two Russias are eyeball to eyeball - those who were imprisoned and those

who put them there." Such conflicts became a potentially explosive aspect of Soviet politics during Khrushchev's de-Stalinization from 1956 to 1964.
They surfaced repeatedly in formal charges by survivors against high-ranking "hangmen, torturers and informers," in dramatic personal confrontations between victims and victimizers, and even in Khrushchev's speeches against his opponents in the leadership.

The "camp theme," as it became known, crept persistently into the officially censored press, along with Nuremberg-like questions of criminal responsibility and punishment.
The Soviet government briefly pursued these Nuremberg issues, but reluctantly, and not beyond the trial and execution of perhaps 25 of Stalin's top policemen and the dismissal of a few thousand officials in the mid-1950s. The many people, including Soviet leaders, were implicated. Moreover, almost total silence was then imposed on these issues in the Soviet press by the official rehabilitation of the Stalin past, which began with Khrush-chev's overthrow and cootinues today.

It was at that time, however, that some Soviet survivors began to insist more loudly, like Holocaust survivors, on the oeed for memory about Stalinist crimes. A remarkable number of Gulag victims and their children became leading dissidents to the late 1960s. ime Alexander Solzhemisyn, Le pelev, Roy and Zhores Medvedev, and Elena -Bonner, Andrei Sakharov's wife.

Equally important, a powerful Gulag literature has since emerged in typescript and in books published abroad — memoirs, fiction and history written by survivors such as Evgenia Guzzburg, Varlam Shalamov and Solzhenitsyn. The similarities to Holocaust bterature are unmistakable.

We have oot heard the last of these voices. from inside the Soviet Union. For conconformist intellectuals, "memory," the name given to a regular underground journal, is "a duty to those who died, to those who survived that dark night, to those who will come after us." Nor can official circles be deaf to such themes. Many survivors have died, but millions of Gulag victims and their children re-main in Soviet society and even officialdom, a potential constituency for another wave of,

uthorized revelacions about the past. One wouders how those people, with their ingrained Soviet habit of reading between the lines, reacted this February when a leading Soviet newspaper suddenly published a Chinese writer's "tragic" story about survivors of Mao's "evil" Cultural Revolution? The editorial introduction was enoticd: "So That It Does Not Happen Again,"

The writer, professor of politics at Princeton University, contributes a monthly column on So-

### No Ganging Up on Protectionism?

W Reagan will play host to the political leaders of Europe, Canada and Japan at an economic summit meeting starting on May 27 in Wil-liamsburg, Virginia. Since the international credit crisis cannot be advarious disguises. West Germany, dressed without the participation of genuinely committed to free trade, dressed without the participation of the banking community, trade will be the only action item. The leaders can control standards on high technology be expected to extol free trade and loudly denounce protectionism but in principle only. Any attempt to ist. France and Italy have raised butackle specifics could open a Pansafety standards to an art form.

Japan combines exclusionist poli-

dora's box of recriminations.

Led by the United States, Western governments in the 1960s and '70s made exceptional progress in lower-ing trade barriers. The Dillon, Kennedy and Tokyo rounds of tariff negotiations sharply reduced duties for cordance with its legalistic bent, a wide range of industrial and con-sumer goods. Quotas on manufactured goods virtually disappeared.
The European Community of to-

day, after the German Empire in the 19th century, is testimony to the way in which a free-trade system can lay the groundwork for political unity.

Since the onset of the global recession, however, the previous trend toward reduction of trade barriers has been reversed. If exports of oil and commodities and trade with the Soviet Union, Eastern Europe, China so long that today only the degree, and the Third World are taken into account, probably 60 percent of world trade can no longer be called "free" in the traditional sense.

Barriers are rising, even between industrial countries - try exporting Italian shoes to Japan or Japanese video tape recorders to America.

By Charles Maechling

ments pledging the reduction of trade barriers and rising protectionist pres-sures, import restrictions oow assume imports; the result may be beneficial to all concerned, but it is protectionresucratic delay and nitpicking on

cies on a wide range of imports with the most effective tactic of all—an across-the-board "buy Japanese" mentality. The United States, in acresorts to exphemisms such as "selflimitation" for coercing Japan to limit automobile exports, or retreats behind a barricade of statutes, regulations and legal technicalities.

Less visible than tariffs and import

quotas, government intervention increasingly takes the form of subsi-dies, either direct or by targeting par-ticular segments of industry for indirect forms of preferential support. Agricultural subsidies have existed in the United States and Europe for

pute. However, the same strategy selectively applied by Japan to cer-tain high technology industries has created an uprogr. Americans forget bow much American aircraft and electronics industries owe to military and space procontracts and plant financing. The Pentagon is about to fund a new race

of giant computers.

President Reagan was right to emphasize free trade in his State of the Union message. Exports oow account for one out of every five American jobs. By constricting options and limiting choice, protectionism in whatever guise is a direct threat to global recovery. But the forms of government intervention that distort the free market have become too per-. vasive and variegated to respond to the same old approaches. It is time for world leaders to rec-

ognize that subsidies of every kind are merely the obverse of trade barriers, and that neither can be discussed in isolation. Internal economic and political pressures are common to all; only the forms that they take differ. The first priority of the Williams-burg summit should be to broaden the dialogue to include all forms of

through mutual accommodation of different systems. The writer is a senior associate with the Carnegie Endowment for Interna-tional Peace. He contributed this comment to the Los Angeles Times.

#### LETTERS TO THE EDITOR

#### In the Middle East ....

How many more tragedies must we witness before the message is driven home to the government leaders in both Europe and America that anar-chy in the Middle East is a reality not easily washed away? How can the United States government continue to preach to Israel that the wilds of southern Lebanon are no threat to her population in Galilee, when 1,200 crack U.S. Marines are incapable of protecting their own embassy roost?
Yet Washington still insists that
the fractured Lebanese army is in control of the country and that Presi-

dent Amin Gemayel is well on the way toward establishing law and or-der in a land which for eight years has known only civil war, sectarian strile, indiscriminate terrorist attacks and political assassination. To be sure, there is but one clear lesson to be drawn from the turmoil of the last few years. It is that, unlike the American ideal, some societies are simply incapable of existing as social, religious or political melting pots. Some, like those in Northern ireland and Lebanon, will resist

amalgamation at all costs, and with passions rarely comprehended by those do-gooders bent upon recasting human nature. The problem, it would seem, lies not in the Middle East but in the Western approach to the Mid-dle East — an approach which re-fuses to recognize that some conflicts

are indeed intractable. It would appear that of all the ac-tors on the Middle East stage, only Israel has a firm grip on this unfor-

tumate reality:

R. HARRISON,

#### ... and the Americas Regarding "Soviet Behavior" (Let-ters, April 28) from James Price.

Mr. Price's remarks on the blunt political attitudes of the Reagan administration in Central America are unobjectionable. However, he misses the point when he sees the actual struggle of Central and South American societies as an evolution toward democratic governments comparable to those of Sweden, or even France. He also misses the point when he depicts the political spectrum of **Qo** world in terms of right and left. In Argentina, a military junt which, even by conservative standards, could be branded as fascist, while killing off and "disappearing" so-called "leftists," simultaneously: takes pro-Soviet positions and favors

a state-controlled economy -- a statecontrolled economy under which the Argentines have known deprivation. If the writer considers that the visible heads of the so-called "democrate ic" parties are known as the caudillos, he would begin to get a sharper pioture of our contradictory situation. As to the Russians, they are no more interested in social changes. It is

minorities already in power. RENEE VILLEGAS

By Bob Sector

Los Angeles Times Service LANG SON, Vietnam - The recent reports of fierce artillery duels and escalating tension along the Vietnamese border with China have been exaggerated and sometimes invented by propagandists on both sides, according to Viet-

nam-based diplomats.
Officials of the two Communist nations reportedly have largely created a war on paper, feeding their bellicose allegations to foreign news agencies.

Several Western and Asian diplomats interviewed in Hanoi conceded that minor shelling incidents occurred in mid-April at about eight places along the border. But for the most part, they agreed, the

frontier had been quiet.

There is very little intensity at all," said a military affairs specialist at a non-Communist Asian embassy in the Vietnamese capital. There are more words flying on paper than shells flying between the two sides."

There appeared to be little if any tension last week in Lang Son, a provincial capital six miles (9.6 kilometers) from the Chinese border and 100 miles northeast of Hanoi. The city stands astride a centuries-old invasion route from China into

The city and much of the surrounding area were seized four years ago by Chinese forces when they occupied part of northern .Vietnam for several weeks in retaliation for Vietnam's invasion of Cambodia. Hospitals, homes and schools in the city still bear the scars of shells and fire.

But despite official talk about the Chinese menace only a few miles away, life in the city seems relaxed and almost carefree. Farmers pedal their bicycles

down rutted, muddy roads, some-how balancing huge loads of wood, chickens or other cargo on the rear tire goard as they make their way along the mountainous terrain.

The scene apparently was much the same on April 17, one day after Vietnamese officials said more than 1,000 Chinese artillery rounds were fired into Lang Son province. Two Western diplomats drove into the provincial capital on April 17 and found militiamen relaxing and playing guitars, several sources in Hanoi said.

The diplomats drove through town, picnicked "within shouting distance of the border," and remained in the area for six hours without hearing any explosions or seeing any damage, the sources

> As many as 25 children are smuggled into Hong Kong every day, he said. "For every child we spot, about six others get through." There are legal ways for children to join their parents in Hong Kong,

Mr. Henry said, but he conceded that these can take years. The police spokesman said most of the boats used for the trips are old and small and that the racket-eers cram as many children on board as possible to earn maxi-

When parents have not paid or cannot be contacted, the spokes-man said, children have been dumped and left behind.

The spokesman said the problem of young illegal immigrants came o light in October 1981. Since then about 3,000 smuggled children have applied for registration with authorities.

Because of the influx, the government has tightened its policy on illegal immigration. The tougher laws apply to children, but on humanitarian grounds they have not been strictly enforced:

### Former Labor Leaders Join Walesa in Protest **Of Sanctioned Unions**

By John Kifner New York Times Service

WARSAW - Senior leaders of the dissolved unions that once had the approval of the Polish authorities have joined with Lech Walesa. the founder of Solidarity, in a call for a return to open, competitive

The appeal, contained in a letter that was delivered to parliament earlier this week, appeared to mark a further narrowing of the government's support since the old government-sanctioned unions had not previously challenged the authori-

Under legislation outlawing Soli-darity adopted in August, existing unions were dissolved and plans were outlined for new, limited unions whose ability to strike would be sharply restricted!

The letter to parliament was highly critical of the new unions. saying:
"Union organizations that are

now being built do not enjoy wide social support, and the current method of implementing this law indicates a desire to monopolize unions under the patronage of the

state employer." The letter was signed by Mr.
Walesa and nine senior leaders who had represented the branch

unions backed by the Communist Party, the somewhat more inde-pendent autonomous unions and the teacher's union. Before the imposition of martial law in December 1981, Solidarity had claimed nine and half million

supporters, the branch unions three and a half million and the autonomous unions about one million. The new unions are claiming to have achieved a membership of two million. Diplomats and other sources say this figure has been inflated by drawing on retired workers, management personnel and students in special trade schools, such as the coal mining academy. These segments of the work force, services.

Rhyming to Read Faster

New Pages of Mayan History

Competing theories on bipedali-ty are essentially based on different interpretations of Lucy's abilities. mate Lucy actually stood up on two feet 3 million years ago and walked — thus becoming one of Lucy, whose skeleton was discovmankind's most important ancestral to modern man or not, are called homimids. "True man," identified by the genus name homo, is considered but one branch of the hominid family tree.

Lucy was 4 feet tall, weighed less than 60 pounds and had a chimp-

gins, is identified with one major school of interpretation. At the recent conference here,

Recently, though, there was an carefully in a feam-padded display

The task of the dozen anthropol-Man's ability to walk on two ogists present was in analyze legs, known as bipedality is now Lucy's skeleton, looking for simigenerally accepted as the hallmark larities and dissimilarities with of bumanness, the key trait present-day apes and immans, separating ancestral men and apes. They rummaged through the buck-It preceded by 2 million years largest for the right bone, from time to er brain size and tool-making assotime waving one in the air, punctuciated with an adaptation to savan- ating a point, attempting to recon-

Lucy, in a sense, is a snapshot out of the past, and reconstructing her behavior is somewhat like trying to describe the building complex in which a photograph was taken now that only the wall behind it remains.
Two pictures have emerged.

One, advanced by Dr. Johanson and Dr. Owen Lovejoy of Kent State University, shows Lucy as a "full-blown" biped. Explain to Lucy what a hamburger is, Dr. Lo-vejoy said, and she would have beaten "you to the nearest McDonald's nine times out of 10."

manuscripis to survive from the Mayan culture, it suggests that the Mayan Venus cult spread throughout 13th-century Central America. It also confirms that the Maya were devoted to Venus not only as a morning star deity but as an evening star deity as well.

The discovery came when John Carlson pieced together fragments The other picture, described by Dr. Randall Susman and Dr. Jack thought to belong an separate pages. He found they combined to form a macabre skeletal figure holding a spear-thrower. The figure has recently been identified from other sources as a god associated with the planet Stern of the State University of New York at Stony Brook, depicts Lucy as a dedicated tree dweller, Venus. When Mr. Carlson compared the manuscript with a Mayan Venusian calendar, be found the occurrence of the skeletal figure correspond-Her gait, they said, was awkward, halfway between that of a chimpanzee and man.

ed to Venus's appearance as an evening star. "No faker could have known to put these death figures on the right pages." he says. The Maya could predict Venus's movements and coordinated battles and sacrifice rituals with the appearance of the Venus as a morning star deity. The two camps did agree on a lew points. Lucy, when she walked, did so on two legs. She was never a quadripedal knucklewalker. She

had huge muscles.

They did not agree, however, on which scientific techniques to stress in studying Lucy nor how to interpret the results.

WASHINGTON — Like the winged muse in the foreground, art scholars have puzzled over the identity of the oddly shaped solid in Albrecht Dürer's "Melencolia I" for nearly a century. According to cultural historian Philip Ritterbush, it is an acute rhombohedron — a six-sided solid with a rhombus for each face. Two corners of the rhombohedron are cut nff. Scholars had previously tried to construct the shape from various solids, including a cube, but failed, and some concluded that it was a mustical symbol. For instance, challenges to Lucy's age were made on the basis of new analyses of volcanic strata. But some felt the younger age -2.9 million years — was not sup-ported by the presence of well-dated "megafauma" (fossilized pigs and rhinos) found ucar other Lucy-Carving solids out of balsa wood and potatoes, Mr. Ritterbush finally arrived at the correct figure. "The drams of the composition is that the seated figure is baffled by the object, but the artist knew what it was," says Ritterbush. "This remarkable work of art demonstrates that by 1514

ike creatures.

Techniques used to study modern apes — cineradiography and electromyography, which examine decrease and the control of the co movement and muscle - were ap-plied to Lucy's skeleton. Some ab-OXFORD, England — If you want your children to read better, teach them to rhyme. Psychologists Lynette Bradley and Peter Bryant of Oxford University report that preschoolers who are good at extegorizing words by the way they sound should learn reading faster in school. jected to using these techniques, contending that present-day apes were millions of years further along the evolutionary ladder and are thus not relevant to Lucy.

Disagreement chiefly centered ou interpretations of comparative primate anatomy, especially in connection with Lucy's hands, feet, shoulder, hip and pelvis.

To understand locomotor be-

havior in fossils, we must use living animals," said Dr. Susman, an ana-tomist who does field work with pygmy chimpanzees. Certain bones in Lucy's hand,

for example the pisiform and tra-pezium, are "primitive in a pougid direction," Dr. Susman said, meaning that they are slender and curved like the finger bones of an

Lucy's shoulder socket faces ap-ward by about 15 degrees, indicat-ing utility in negotiating trees. Her pelvis, while more human than apelike, has — viewed from a certain angle — an iliac blade ori-ented like that of a champ.

The hip socket is not as round as a human's and there is evidence that the thigh may have been bent, relative to the pelvis, in walking
Finally, according to Dr. Susman and Dr. Stern, Lucy's foot,

while similar to that of a human, shows a retention of grasping tend-encies. Again, the digits are long and curved, spelike. The middle part of the foot is more humanlike than the forefoot and toes. The foot is 40 percent oversized, com-

Everything about Lucy, from her fingertips to her toes, suggests that "our ancestors, after they diverged from apes, inhabited the trees 3 to 4 million years ago," said Dr. Stern, who is also an anatomist.

In fact, it may have been tree life that predisposed early hominids toward bipedality. Vertical move-ment through the branches, in this view, could have led to neurological changes that made it natural to use muscles in a impedal manner once on the ground. Hominids presumably retained this form of locomotion while, for unknown reasons, the ape family chose knuckle-

According to Dr. Susman and Dr. Stern, Lucy, with her light weight and langless have survired on the ground. They described Lucy as a transition between early ape and early human. Her family tree led directly to Homo erector, who, 1.5 million years ago, had a substantially larg-

Lucy's toes are shorter than those of any homimid but man, Mr. Latimer said. The medial cuneiform, which connects the big toe to the foot, is round in all primates, save humans and Lucy, where it is

completely bipedal, Dr. Lovejoy maintained. She may have occa-sionally visited trees, he said, but her apelike traits are no more than 'evolutionary excess baggage."

In other words, Lucy could not have evolved such drastic skeletal changes without long practicing bi-

Thus. Dr. Lovejoy's family tree places bipedality — and the origins of hominidity — further back in time than that of Dr. Stern and Dr. Susman. He also maintained, with Dr. Johanson, that Locy was ancestor to two later creatures. Homo -

Lacy the biped would have had no trouble surviving on the ground, Dr. Lovejoy said, asserting that predation is highly overrated

He further suggested that bipedality evolved in tandem with a socio-reproductive complex of behaviors, including monogamy; in other words, Lucy's kin walked on two legs to set up new family patterns on the ground. He proposed that this paved the way 2 million years later for genetic adaptations favoring larger brains.

A third family tree was later pre-

sented by other participants at the conference, postulating the exis-tence of yet another hominic closer to modern man, that lived at the same time as Lucy. Evidence for it lies in a set of humanlike fossilized footprints found in Tanzania in 1976 by Mary Leakey.

Leakey and her son, Richard, lead another rival paleoanthropo-logical faction, which holds that Lucy is representative of a line of Australopithecines that later died out. They did not attend the con-

Yves Coppens of the Musce tie l'Homme in Paris, was on the program but failed to show. Several people said one of his colleagues had been strongly criticized by the Berkeley-Johanson group. The conferees agreed they need-

ed more bones to sort out their aromments, particularly fossils going back 5 million or 6 million years. If Dr. Lovejoy is correct, the

more ancient creatures would be a missing link, anatomically between ape and hominid. Dr. Susman and Dr. Stern would expect to find the proto-stock from which apes and humans later descended.

The long and short of it is, according to a participant, that bi-pedality lies in the eye of the beholder. Or. perhaps, the hambone is connected to the tree while the footbone is connected to the ground.

### Shrinks for Pets

LONDON - Britons turn increasingly to animal psychologists to straighten out their eccentric pets, although the owners them-selves may be more in need of treatment. Newspapers flourish with advertisements claiming cures for claustrophobic cats, demented dogs and bird-brained budgerigars.

"Béhavior is a plastic mold which can be modified," said Dr.\ Robert Mugford, who runs a clinic in Chertsey, Surrey. He said he lies dealt with about 1,200 cases of psychoses in dogs, cats, birds and horses in four years.

Another Surrey animal psychologist, Ann Brewer, said. "It is of ten the owner and not the dog that

### WALL STREET WATCH

By EDWARD ROHRBACH

### What's Good for General Motors May Good News for Investors

emember when men were men and cars were cars — with sweeping tail fins and lots of shiny chrome? Back then General Motors - Chairman Charles "Engine Charlie" Wilson was said to have told Congressmen: "What's good for General Motors is good for the country."

GM is still a bellwether of the U.S. economy. What's more, its stock is a bellwether of Wall Street.

Dean Witter's Robert Stoyal has traced the correlation back to the 1920s and discovered an 80 spercent accuracy rate in predicting where stocks are headed.

stocks are headed.

By selling April 25 at 65% (a higher high than the Jan. 11, 1983, high of 65%), GM's common stock signaled another four-month extension of the "All Clear" or "Buy" signal, which has been in force since March 19, 1982, when GM was \$39 a share and the Dow Jones industrial average at

According to Mr. Stovall's theory, each subsequent higher high for GM extends the "All Clear" period four months into the future from the

'GM shares

frequently do well

before the general

market turns up.

date set. Because the stock drove ahead to 71% a week ago, the indi-cation is that Wall Street will enjoy happy motoring now at least into

The rationale for the General Motors bellwether lies in "GM being the world's largest industrial concern, with an army of share-bolders, a technocrat management, a cyclical product line, and a divi-

dend policy that fluctuates according to the intermediate outlook," Mr. Stovall explained, ooting that similar studies on IBM and AT&T stock prices over the years show they have been much less accurate forecasters

" "GM shares frequently do well before the general market turns up and, likewise, foreshadow sinking spells for overall equity valuation. "However, the bellwether is only one technical indicator," he added. "If life were that simple, we'd all be rich."

While GM's stock may not see any potholes immediately ahead, Dean Witter's investment policy committee, of which Mr. Stovall is a member, remains cautious about the market.

What is missing in the current "joyons picture" Wall Street is painting wrote Lee Idleman in the firm's latest "Investment Comment," is the "continued absence of upside earnings surprises."

"All bull markets start with improved psychology [i.e. higher multiples] but must eventually be nourished and sustained by pleasing profit figures, which enable investors to keep raising their sights," he said. "In

fact, what usually happens is that investors get carried away with extrapolating superior earnings growth to the extent that expectations far exceed reality, and the bubble finally bursts.

Mr. Idleman called attention to the fact that since the market took off

last August, Dean Witter analysis have seen fit to increase their earnings forecasts for individual companies a total of 515 times, while having to reduce their projections on 1,441 occasions. Despite this cearly three-to-one ratio of disappointments, he noted, price/earnings multiples today - are nearly double last August's levels.

#### To Correct or Not to Correct

Where is the correction Wall Street's top gurus have been predicting?

Listen to E.F. Hutton's Newton Zinder:

"Where many of my peers and I have been wrong is in underestimating the amount of money, from IRA accounts and other sources, that has been looking for a home."

He noted that mutual funds' buying of stocks set a record in March, yet these funds still had more money at the end of the month to invest than was available at the beginning.

"Heavy speculation is the market's big problem right now," he asserted. "Secondary stocks and speculative issues are where the leadership is being concentrated."

This suggests, he said, greater public (as opposed to institutional) participation, as do Hutton's figures showing clients heavier into margin.

Everybody seems to be looking for the next Chrysler, buying stocks with questionable fundamentals, or just because they haven't moved He warned that market tops are often signaled by such activity, though "it doesn't mean the Dow can't go up another 20 or 30 points —it means we're in a high risk area. But I also said that 100 points lower on the

Asked his advice to small investors, he replied: "Go for less volatile stocks and resist trying to make a quick killing. Someone's going to be

the last buyer, and you don't want that to be you."

Alan Shaw, Smith Barney's chief market technician, shares Mr. Zinder's ocar-term worry, while also emphasizing "we are in a secular bull market for most stocks."

Mr. Shaw warned that the market might be near a "consolidation phase," or a 75- to 100-point pullback on the Dow. "Using one technical measurement, the 1,250 zone can be identified as an objective for the DIIA's current run." But he added that any consolidation or correction (upward of 100

points) would probably not be "homogeneous," with stronger groups — airlines, banks, cosmetics, drugs, foods, household products, office and business equipment, retail food chains and soaps — "treading water," or

even moving higher against current."

Martin Zweig, whose Zweig Forecast has kept subscribers licavily invested in the bull market right along, advises: "In sum, stay with the strong tape action and the bullish Fed."

### **EC Backs** France's Loan Bid

PARIS - The European Community's Monetary Committee has approved a request by the French roment for a multi-billion franc loan. French Treasury sourc-

es said Wednesday. They declined to give any other

But French government spokes-ian Max Gallo said earlier Wednesday the request was for 30 billion francs (\$4.1 billion).

Mr. Gallo said Finance Minister

facques Delors had waited until now to request the loan to allow time for government ansterity mea-sures to be approved by the National Assembly.

Mr. Delots also wanted to assess

how far France's foreign currency reserves would be rebuilt as funds returned to France following the March 21 realignment of the Enropean Monetary System.

Financial sources said France has recouped almost as much in currency reserves as it lost in defending the franc before the latest

Mr. Gallo said the community also was to make 3 billion Europe-an currency units (\$2.8 billion) available for investment in industry and job creation. France, as well as other community members, would be able to draw on this facil-

ity, he said.
The EC Monetary Committee comprises top level officials from finance ministries and central banks of the 10 member states.

The committee's approval is ex-pected to be endorsed by comminity finance ministers at their next meeting on Monday.

Beguest Assicipated
Earlier, Pani Lewis of The New
York Times reported from Paris:
At the time of the last devalua-

tion, Mr. Delors said France would probably apply for a new commu-nity loan, but he did not say when or how much it would seek to bor-

The money would come from the EC's so-called Oil Facility, a pool of up to \$6 billion the 10-nation or up to \$6 billion the 10-nation community agreed to lend to members in balance of payments trouble after the 1974 oil price shock. The funds would be borrowed on international markets by the EC governments on their collective security and then lent to France.

In return for leading France money, the EC will demand that it introduce economic reforms de-signed to strengthen its balance of payments. But the French are ex-pected to argue that last month's isterity package meets this re-

France is seeking new sid just when doubts are growing in bank-ing circles about the effectiveness of the April austerity package. The franc remains weak against the dol-lar and recently has fallen sharply against the Deutsche mark, to which it is linked under the EMS.

When the April austerity package was drawn up, the French Finance Ministry assumed the dollar would be worth 7.05 francs on average during the rest of the year. But if it remains around 7.35 as it is now, the Finance Ministry expocts most of the anticipated improvement on the trade account to e lost. As a result, France will not achieve its target of halving its cur-rent account deficit this year and eliminating it in two years.

### Stock Exchange Specialists Face Increasing Pressure for Change

Donald Stone; far left, a New York Stock Exchange spe-

cialist, talking on the floor with another member, and Mi-

chael A. Dritz, an American Stock Exchange specialist.

New York Times Service

NEW YORK - There used to be a time when the need for the stock market specialist was unquestioned. As recently as the mid-1970s specialists at the New York and American exchanges were the focus of stock

rading on the exchange floors.

Today, the specialists still hold forth at trading booths on the exchange floors, where they buy and sell stock for customers. But the ability to duplicate their functions electronically has brought increasing pressure to redoce or revise the specialist's role in stock trading

"Why walk over to one booth when you can sit at an exchange and buy by computer?" said William McGowan, president of MCI Communications. "Why run around with slips of paper?" MCTs stock was the most actively traded last year and is bought through the over-the-counter electronic system.

All trading can be done electronically, asserted Kenneth A. Eber, vice president for marketing at Electronic Trading Services, a division of Control Data that owns the Cincinnati Stock Exchange. All stock trading on that exchange is done by brokers using computer terminals.

By contrast, all stocks traded on the New York and American exchanges are executed manually, although about 30 percent of the orders are received through computers. The exchanges "don't want to automate it," Mr. Eber said. "You will always need a specialist but they don't have to be on the floor."

The level of debate over the specialist's role often becomes more heated when trading in stocks is halted or delayed. Recently, for example, specialists have been criocized for their part in the long delays in trad-ing of Waste Management Inc., Warner Communica-

subject to adverse oews developments that precipitated a flood of sell orders. The specialists, however, staunchly defend their

"For you to be able to trade you really don't need a

guy like me," said Joseph Kaufman, a specialist at the American Stock Exchange. "But the times when no-body wants to buy or sell, I'm needed. We only in-tercede during an imbalance" de during an imbalance.

"We find the specialist is criocal to the process of maintaining an orderly market," said Leland B. Paton, executive vice president of Prudenoal-Bache Securities. "Where a specialist can be critical is in telling us about someone who was in the crowd as a big buyer or seller. The information gathering part is very important."

Brokers meet to buy and sell a particular stock in front of the booth of the specialist who makes a mar-ket in that stock. Although the specialist does oot par-ncipate in the majority of trades, he observes the auction-type bargaining and thereby knows what interest there is in the stock.

The auction characteristics are the strength of this market," said Donald Stone, vice chairman of the New York Stock Exchange and senior partner of Lasker, Stone & Stern. We are moving forward with a great oumber of electronic enhancements so we can be responsive to our customer oeeds. The fact is this market works."

A specialist makes a market in a stock by being a buyer and seller when there are no other order takers in the market. To become a specialist a person must first own, lease or have the right to a seat on the exchange. Membership at the hig Board costs over

### N.Y. Stock Prices **Decline Sharply** On Deficit Fears

Compiled by Our Staff From Dispatches NEW YORK — Prices on the New York Stock Exchange closed broadly lower Wednesday as investors, worried about future budget deficits, cashed in on profits from

Wall Street's nine-month rally.
The Dow Jones industrial average gained slightly in the first hour but moved steadily down the rest of the day, closing off 9.96 points at 1,219.72. Declining issues totaled about 1,000, compared with 600 advances. Volume narrowed to 99.8 million shares from the 104 illion traded Tuesday.

"The market got nervous," said Michael Metz of Oppenheimer & Co. "Investors saw early warning signs that prices had hit a peak and eided to lock in some of their

Mr. Metz said he doubted Wednesday's action marks the beginning of a major correction. There is simply too much money on the sidelines waiting for an en-

try point to allow a correction," he He predicted that the market will settle into a narrow range be-tween the high 1,100s and the low 1,200s on the Dow for two to three

weeks and then move up again, Some of the selling was triggered by investor concerns over the size of the federal budget deficit and what effect that would have on in-

terest rates. The congressional battle over the fiscal 1984 budget resolution appeared to have reached a stale-mate, with Senate Republican Leader Howard Baker warning there is a strong chance no agree-

to spend. Preston Martin, Federal Reserve vice chairman, warned Tuesday large deficits pose a "prominent risk to solid growth" in

would settle May 31.

On the NYSE floor, oil company

issues, which have been lagging the recent stock market rally, started to catch up Wednesday after Salomon Brothers issued a lengthy, favor-able report on the group.

Salomon Brothers oil analyst Paul Mlotok said his brokerage firm "took a very positive ontlook on the oil industry.

He based his optimistic assess ment of the oil stocks on a growing confidence that the OPEC base price of \$29 a barrel for crude oil will be maintained. He also expects that, by the fourth quarter, the in-dustry will feel the effects of increased energy demand as a result of the economic upturn.

Oil stocks with advances included Ashland Oil up ¼ to 35%, Standard Oil of Indiana 1% to 46%, Atlantic Richfield 1% to 46% and Mobil Oil % to 314, all in active

The share prices of Monsanto and Diamond Shamrock have been active on concern about a possible adverse ruling in a suit involving the use of the defoliant "Agent Orange" in Vietnam, analysts said.

Both companies, plus Dow Chemical and six other chemical manufacturers are defendants in a suit filed by more than 20,000 Vietnam veterans, widows, and chil-dren, alleging that dioxin in the de-foliant caused cancer, deformities in children and other illness.

Analysts said Monsanto and Di-amond Shamrock are the only two not to ask for dismissal of the suit. Monsanto, which had shed 44 The fight is over bow to reduce the bage budget deficit and where to spend. Preston Martin Truesday, which had shed 4% Tuesday, lost another % Wednesday to 86%. Diamond Shamrock, down 1½ Tuesday cained by the spend.

Zayre Corp., which lost 2% Tues-day, was a buying target. The com-pany said its first-quarter earnings ripled from a year ago. International Telephone & Tele-

Further, congressional delay in passing legislation to raise the government's debt ceiling apparently has prompted the Treasury to forego announcing next Wednesday an from \$1.10 a year ago.

### U.S. Retail Sales Rose Strong 1.6% in April The Associated Press

WASHINGTON — U.S. retail sales surged 1.6 percent in April and 1.7 percent in March, with auto sales accounting for more than half of the improvement, the Commerce Department said

Wednesday.

The April level of sales activity - Without April's \$17.0 mmm m was \$94.2 billion after seasonal adcar sales included, the month's overall retail sales would have Wednesday. justment, the department said. ### **BUSINESS BRIEFS**

### Amoco Sells Italian Subsidiary To Saudi-Controlled Companies

ROME (Reuters) — Amoco Italiana, an Italian oil refining company, announced Wednesday that it has been sold by its parent, Standard Oil of Indiana, to two Sandi Arabian-controlled companies.
Industry sources said the acquisition by the First Arabian Corp. and

Arabian Sea Oil represented the first move by Arab interests into the Italian oil refining market. They said the purchase demonstrated the determination of oil producing countries to gain greater control of downstream operations during the current oil glut.

Amoco Italiana, which operates a large refinery at Cremona in northern Italy and controls about 3 percent of the national market for refined

oil products, said the company's entire stock had been bought by the two

Amoco operates a chain of 1,100 gasoline stations in Italy. It has a work force of about 600 and had a turnover of 1.1 trillion lire (\$755.9)

### Court Rejects Klöckner Appeal

LUXEMBOURG (UPI) - The Court of Justice of the European Community rejected on Wednesday complaints by West Germany's Klöckner-Werke steel company against the European Commission for having imposed production and delivery quotas the company deemed too

The court also rejected an appeal by Klöckner against a 5 million Deutsche marks (\$2 million) fine imposed by the commission because the company had exceeded its production quotas in the first quarter of 1981.

Klöckner attacked the commission's rulings on various counts. It contested the legality of the commission decision to impose quotas and argued that the commission quotas had miscalculated Klöckner's production capacity.

### Sun Banks Cancels Merger Talks

FORT LAUDERDALE, Florida (NYT) - Sun Banks Inc. of Orlando

called off merger talks with Flagship Banks Inc. of Miami on Tuesday, a day after amouncing a \$331 million bid for Flagship.

Flagship's largest stockholder, Juan Vicente Pérez Sandoval of Caracas. Venezuela, who owns 9.9 percent of Flagship's stock and has an option to purchase an additional 11.7 percent, then announced that he would sue Flagship. He charged that the bank and its directors had committed "a gross breach of their fiduciary duty" by failing to accept the Sun Banks proposal.

### First Chicago Settles With Iran

CHICAGO (AP) — The First National Bank of Chicago said Wednesday that it had settled its bank debts with Iran, obligations dating from 1979 when the U.S. Embassy in Tehran was seized.

Under a recent agreement concluded in London, First Chicago will receive from Iran \$13,077,000, representing payment of the bank's out-

standing loans plus interest.

The settlement also provides for Iran to pay First Chicago an additional amount, now in excess of \$700,000, for 18 days' interest on syndicated loans, after Iran, the U.S. government and the affected U.S. banks agree on payment procedures.

#### ECU Traveler's Checks Studied

PARIS (IHT) — The first attempt to popularize the European currency unit, the composite unit made up of nine European Community currences, is under way with a group of French banks setting up a company to stocks. At the Big Board, there are study and develop a traveler's check denominated in ECUs. The aim is to about 409 individual specialists be marketing by oext year PCU checks in denominations as small as 50 PARIS (IHT) - The first attempt to popularize the European currency be marketing by oest year ECU checks in denominations as small as 50 ECU.

American Express will extend technical assistance as well as holding a small interest in the new company that is being founded by Credit Lyon-oais, Banque Nationale de Paris, Caisse Nationale de Credit Agricole and Credit Commercial de France.

The founders say they are seeking the participation of banks in the other EC member countries. They say the ECU is in increasing demand with international institutions and companies because of the greater stability of interest and exchange rates it offers compared with domestic currencies.

### Norway Reports Oil Discovery

STAVANGER, Norway (AF) — Norway announced Wednesday its first offshore oil discovery north of the 62nd parallel but declined to comment on its commercial potential.

The discovery, in which the Norwegian state oil company, Statoil, has a 50 percent interest, was in an offshore area called Haltenbanken, north of the North Sea. Norway produces about 500,000 barrels a day in its

sector of the North Sea.

The government said Statoil had struck oil and natural gas when drilling the second test well in the Haltenbanken area. Three private oil companies hold interests in the project. Amoco Norway, with 20 percent; Norsk Conoco with 20 percent, and Norsk Hydro Produksjon with 10

### U.S. Clarifies Rules On Joint Research

By Robert D. Hershey Jr. New York Times Service
WASHINGTON — William F.

Baxter, the Justice Department's antitrust chief, has offered business executives specific benchmarks that should make it easier for them to judge when companies can do joint research without violating the

Mr. Baxter's statement, probably the most explicit ever made on the subject by any U.S. administration. could be another incentive to increase joint research and development efforts by American companies. Many business executives have complained that American antitrust laws have helped under-mine the United States' ability to compete successfully against Japan

and other countries.

Mr. Baxter, while inclined to belittle that contenoon, nonetheless described in detail Tuesday the cirances under which it would be unlikely that joint ventures

would be challenged.
In general, he declared, such collaborations are likely to be permissible when the participants account for oo more than half of an indus-try and when their joint efforts would still leave room for four to six competing ventures in the field.
"That should be regarded as per se OK," Mr. Baxter, assistant at-torney general for the antitrust division, told a meeting sponsored by the National Association of Manu-

It is often argued, Mr. Baxter observed, that joint ventures pose a danger of exclusivity because some company that would like to participate is left out. But the real problem - if there is one - is not whether such ventures are 100 exclusive but whether they are too inclusive, he said. If an entire industry were to combine to do research and development, he said, it would amount to repealing the patent system that has been devised to foster

Mr. Baxter warned that collaborative research should be done by groups oo bigger than is occessary to take maximum advantage of the economies of scale. In doing so be made it clear that measurem industry participation should not necessarily be confined to Ameri-can companies but should take into account other producers throughout the world. James P. Carty, an antitrust spe-

cialist for the manufacturers group, praised Mr. Baxier's formulation as likely to provide some addi-tional "comfort" to corporate officials contemplating joint ventures. He and other participants in the conference, bowever, took issue with Mr. Baxter's broader contenoon that U.S. antitrust laws are a oegligible factor in the nation's

trade deficit — \$19 billion last year — with Japan, "A lot of people feel it has a chilling effect," Mr. Carty

NEW YORK - Brazil's coordi

natiog committee of 18 interna-tional banks has rejected a U.S.

proposal to combine the trade-fi-

nancing and interbank components

of its four-part financing program, banking sources said Wednesday. Major U.S. banks made the pro-

posal at a meeting here Tuesday but it was rejected by British and

Japanese representatives on the

The motive for the proposal was

to encourage banks, especially U.S.

regional institutions, to commit

more funds to Brazil, the source

Under project three of the four-

part international financing pack-age arranged for Brazil earlier this

year, banks were asked to commit

trade-financing lines totaling \$8.8

Commitments are running on target, if not above, and bankers

But project four, which asked banks to maintain \$7.5 billion in

interbank money-market lines, has

met a disappointing response and

the proposal made Tuesday was designed to overcome the resist-

ance of banks that have not met

ommittee, they said.

proposals on antitrust matters include a provision that makes joint research efforts subject to a so-called rule of reason. This, in effect, means that each case can be examined and argued individually in contrast to per se cases in which certain behavior, such as price-fix-ing, is illegal on its face. Mr. Baxter's package also calls

on Coogress to abolish treble damages for private anotrust suits in per se cases, limiting recovery to said they are generally satisfied with this aspect of the package. actual damages suffered.

Products are protected much better than processes, he noted. That fact, he said, prompted the administration in include in the bill a provision that would extend the patent on a process to the product that results from it. Under present law, foreign companies are able 10 obtain a patented process, develop has a chilling effect," Mr. Carty a product from it and then sell the product in the United States with impunity.

### U.S. Stock Specialists Under Pressure

(Continued from Page 7) \$300,000 and a sear on the Amer costs about \$100,000. A specialist is voted on by the exchange bot the key is that the firm must prove its ability to make a market in the

Al the Big Board, a firm must be able to purchase 5,000 shares of each of the stocks in his franchise. At the Amex, a firm must prove net liquid assets of \$100,000 and be able to buy 20 trading units for each of the securities the firm is registered to trade.

There are 200 specialists bout 27 stocks per unit.

The specialists may retain an important role, but their participation in trading is declining, relative to market volume. Today they are buyers or sellers in only 20 percent of the transactions at the New York Stock Exchange and in only 12 percent at the Amer. And the largest trades are done at the big brokerage firms offices, where

Moreover, many of the manual chores of the specialist have already been antomated. The brokes no longer hand delivers small orders. Those are spit ont hy a machine at the specialist booth. Even the most visible tool of the specialist many the book. ist — the book, which is a long, narrow loose-leaf binder where orders to buy and sell stocks at different prices are kept — has been automated on an experimental ba-

Eastman Kodak

**Makes Chandler** 

Compiled by Our Staff From Dispatches
ORLANDO, Florida — Eastman
Kodak announced on Wednesday
that President Colby H. Chandler

has been elected to succeed Walter A. Fallon as the company's chair-man and chief executive officer.

Mr. Chandler, 57, has been president of Kodak since 1977. Mr. Fallon has been chief executive of-

Mr. Fallon is to retire July 1.

Mr. Chandler, 57, has been president of Kodak since 1977. Mr. Fallon has been chief executive officer since 1972 and chairman since 1971. Commenting on last week's layoff of 1,600 Kodak workers, Mr. Fallon told the company's annual meeting that the work force reductions could best be understood in light of financial results for the first quarter of 1983.

During that quarter, sales declined 5 percent to \$2.13 billion. Net carmings, before charges associated with the company's optional retirement and acparation program.

ment and separation program, were down 25 percent to \$136.8

When the costs of implementing

the separation program were in-cluded in calculations, net earnings

were 73 percent lower than those

. "We see 1983 as a turn-around year ... a time when financial re-sults will bottom out as we build

the base for renewed earnings growth in 1984 and beyond," he

said.

To meet those goals, Mr. Fallon added, Kodak will undergo a major

cost-reduction program and reduce the number of its employees

through attrition.

Mr. Chandler will be succeeded

as president by Kay R. Whitmore, currently an executive vice presi-

dent and general manager of Ko-dak's Photographic Division, the

### Wall Street Bullish on Digital Switch Stock

### But Many Are Beginning to Say the Young Company Is Overpriced

By Howard Luxenberg

NEW YORX - For a company that did oot generate any revenue until the second quarter of last year, Digital Switch has fast be-

on Wall Street.
The stock has catapulted from \$39 a share in January to over \$140 in over-the-counter trading this work. At this time last year it was

selling for less than \$15 a share. Most of the commotion in the stock is traced to its link with the elecommunications industry, vhich is about to undergo a revitalization as a result of the scheduled

breakup of American Telephone & Telegraph Jan. 1, 1984.

Digital Switch provides switching equipment to specialized com-mon carrier companies for receiv-

AT&T is estimated to control more than 90 percent of the \$40

is Digital Switch's biggest custom-

er, accounting for a major portion of the company's \$116 million order backlog. But Susan Hirsch of Smith Barney, Harris Upham, reflecting the views of other analysts, said, "We're looking at a breakout of the

industry that was previously a monopoly of AT&T. She said the company has an exciting market, whose success depends on how well other carriers

do in competing with AT&T." Formed in 1976, Digital Switch went public in 1980 but did oot have any revenue until the June 30, 1982, quarter because its product was still in the development stage.

billion long distance market, but In less than a year the company analysis said other carriers are beginning to get a slice of the remain-ing 10 percent. The others are re-to express caution about the runup garded as potential customers for in the price of the stock.

Digital Switch "Digital Switch has emerged"

MCI Communications — the from the embryonic stage to be-nost active OTC stock of 1982 — come B company of substance." Ms. Hirsch said.

Even with the encouraging fun-damentals, some analysts believe the stock's rise may have come too fast. On 1982 earnings, its price/earnings ratio is 280. With about 5.7 million shares outstanding, the company's market value is currently more than \$800 million. Its sales in 1982 amounted to \$27

Inc. calls Digital Switch "a super company, but grossly overpriced."

an easy recommendation at lower prices, but at these levels it's hard share last year, and in the first quarter of 1983 the company already has exceeded that, earning 53

Ms. Hirsch expects the company to earn \$2.40 a share this year and predicts \$3.80 for 1984. The 1984 estimate may be conservative, she

Mr. Monte forecasts Digital Switch will earn \$2 and \$4 B share in 1983 and 1984, respectively, and sees sales climbing to \$100 million

But Mr. Monte cautioned, "A lot of things will have to go right for hem in terms of securing new customers and introducing new prod-

to get additional customers to get sales up to the \$200 million level and earnings to \$4 a share next

### EC Hits Snag in Talks With China

in its efforts to negotiate a new tex- ter last week's tolks. tile agreement with China only weeks after U.S-Chinese talks broke down in acrimony, officials

said Wednesday A team of textile experts from the European Commission returned Tuesday from a four-day after ovisit to Beijing, and members of the lerms. party said it appeared that China was not ready to begin talks.

"They gave no indication of their demands and just remained silent," said one official. Diplomats said they were surprised by the outcome. "We ex-pected the Chinese to do a lot of

alking," one said.

BRUSSELS — The European community has suffered a setback the end of the year and the commission had expected to be able to draw up its negotiating position af-

"I doo't see how we can now," the official said.

and China on a textile accord broke down in January of this year after disputes developed over the

Diplomats said the community's talks with China were particularly delicate following the failure of the seeking to hold down imports from U.S. negotiations. Those talks had the Third World in order to shield shown that there apparently would its own industry during the recesbe strong political overtones to sion, had been expecting China to Beijing conditions for any accord, ask for higger quotas.

But the diplomats said.

Beijing's silence was particularly The community is seeking to renew a four-year agreement limiting the commission on a visit to Brus-

Textiles had been discussed at that time and commission officials said they had explained the significance of the May talks in Beijing.

China's textile industry is large and expanding rapidly, although at the moment it does not send as much to the community as do maor exporters like Hong Kong and South Korea.

But the diplomats said the community was unwilling to agree to any large increases and wanted to offer modest terms similar to those oegotiated with more than 20 deports. The agreement runs out at sels last month that China wanted veinping countries last year,

### Las Vegas Hotel Settles Fire Case

NEW YORK - In what may be the largest out-of-court settlement bgreed to pay \$140 million to settle claims arising out of a 1980 Las Vegas hotel fire that killed 84 per-

MGM Grand Hotels will pay \$75 million and the 41 other defendants will pay smaller sums to 1,357 victims of the fire and their families, said John Cummings 3d. chairman of the plaintiffs' legal committee. He called it "the largest settlement in United States histo-

The individual awards range from \$18,000 each for a man and woman who inhaled toxic gases to \$6 million for the children of a couple who perished.

The International Herald Tribune and the High Council of Chambers of Commerce, Industry and Navigation of Spain invite you to

### Meet the New Spanish Government

May 30 and 31, 1983 in Madrid.

The election of a Socialist government in Spain is of particular significance to the international business community. After initial steps characterized more by pragmatic moderation than by left-wing ideology, the government of Felipe González is being closely watched to see whether it will succeed in restoring economic health to the country.

To help senior executives of foreign companies assess the prospects for their activities and investments in Spain, the International Herald Tribune and the High Council of Spanish Chambers of Commerce have organized, with the cooperation of the Spanish government, a conference on "New Spanish Economic Policies," to be held May 30 and 31 at the Palace Hotel in Madrid.

MAY 30, 1983

GENERAL INTRODUCTION TO THE NEW

SPANISH ECONOMIC POLICY

Felipe Gonzalez, President of the Government

FOREIGN POLICY

Fernando Moran, Minister of Foreign Affairs FOREIGN TRADE

Luis Velasco, Secretary of State for Commerce

LUNCHEON ADDRESS

Miguel Boyer, Minister of Economy and Finance

#### THE SOVIET VIEWPOINT

By Georgi A. Arbatov and

Willem Oltmans. 219 pp. \$13.95. Dodd, Mead, 79 Madison Ave,

New York, N.Y. 10016.

Reviewed by Malcolm Toon

THIS IS the sort of book that gives me an acute case of dyspepsia. Not because of its content, for as former Senator J. William Fulbright points out in his introduction, the interviews with Georgi A. Arbatov — director of the Institute of U.S.A. and Canadian Studies in Moscow — accurately reflect the official Soviet point of view, but because the book provides the sort of effective propaganda platform for our Soviet adversary in this country that is coosistently denied us in the Soviet Union. Most of us who have dealt professionally with the Soviet Union have long envied the access to U.S. media and academe freely accorded to Arbaiov and other Soviet spokesmen who masquerade as "independent" but who in fact are fierce protagonists and apologists for official Soviet policies and behavior.

I personally would give my eyeteeth for an opportunity to respond to questions by a friendly interlocutor, have them recorded in book form in the Russian language, and then have the book freely and widely distributed throughout the Soviet Union with ringing endorsements by, say, Supreme Soviet Deputy Borns Ponomarev and Georgi A. Arbatov himself as required reading for every thinking Russian. Such a format would be roughly parallel with the opportunity giveo Arbatov with "The Soviet Viewpoint," which bears a warm introduction from Senator Fulbright and even an accolade from George F. Kennan.

The book takes the form of answers by Arbatov to 150 questions, principally about the U.S.-Soviet relacionship, framed and put to him by the Dutch journalist Willem Olumans in a series of visits to Moscow from 1979 to 1981. The questions and answers are grouped under the following headings: The Ordeal of Detente and the Value of Accurate Perceptions; The History of Soviet-American Relations; Peace and War, The Arms Race and Arms Control: Issues of Ideology, Human Rights and Dissidents; The Two Giants and

Solution to Previous Puzzle

- potent Lakers the World. This all-encompassing potpourn of official Soviet opinions — again I remind the reader that despite his disclaimer Arbatov speaks for the Soviet government - on every-

thing that affects U.S. relations with Moscow is topped off by "a few words about the future," reflecting, for the most part, Arbatov's current pessimistic view that unless President Reagan drastically changes his policies and attitudes or unless he departs from the American political scene after one term, time will run out for all of us.

The above remarks will be interpreted by some as a reflection of personal animus toward. Arbatov. I would regard such a reaction as unfeir. I respect Arbatov as an astute, albeit subjective, observer of the U.S. scene and an acctrate purveyor of the official Soviet line, but I have never ceased to be amazed at the man's consummate arrogance and gall; and I have long been disturbed by his one-sided assessment of the world scene and the impact of this on Soviet leaders, with many of whom Arbatov is well-connected. These traits and the characteristics of Arbatov's approach are amply revealed in many of his answers to Olimans' questions, and it is clear that Arbatov has nged little since my stewardship in Moscow (1976-1979), when I knew him well.

Arbatov has never been shy about commenting on American ineptitudes and shortcomings as a people and be remains perfectly unre-strained in his answers to Olumans's queries, many of which are by no means unbiased. Reacting to Oltmans's rather snide observation about Americans' egocentrism. Arbatov says, "Twe observed many times how difficult it is for Americans to put themselves in other people's shoes, or even to imagine the consequences of American actions for others. Sometimes I think that it is not only the dubious intentions and vested interest of some Americans that cause some of the problems that are of foremost importance today, but also their inability to look at life through the eyes of the other side. We have already discussed, for instance, how the United States, in evaluating Soviet military power, ignores the real threats faced by the Soviet Union and then shouts about the 'Soviet threat.' I don't think the United States fully understands its allies either"; and finally "American ignorance about the Third World is even greater

While, as these examples illustrate, there is a heavy propagandistic slant to Arbatov's views, I agree with Senator Fulbright that Arbatov's observations should be the subject of serious study and evaluation by the Congress, the administration and the public and that "to understand the Russians, their purposes and their abilities and decide how to treat them is the most critical problem facing the nations of the

lo my opinion, it is equally essential to sta-bility and lasting peace for the Soviets to have a clear understanding of our purposes, our abilities, and concerns - and for this, access by our spokesman to the Soviet people, as Ar-batov has to us through this book, is essential.

Malcolm Toon is a former U.S. ambassador to the Soviet Union. He wrote this review for The

Duane Sutter got the Islanders the only goal they needed by beating Oiler goalie Andy Moog at 5:36 of the first period in Tuesday's Game 1 of the Stanley Cup title series. Moog had made a solid stop on a shot from the point by Stefan Persson, but New York's Bob Bourne got the rebound to Sutter -- who had outflanked Moog and scored on a tap-in.

Islanders Pices

By Kevin Dupont New York Times Service

EDMONTON, Alberta - The New York Islanders showed up for the opener of the National Hockey League championship series Tues-day night without their top goalscorer, Mike Bossy, who was sidelined with tonsillitis. The Edmonton Oilers showed up with the highest-scoring team in National Hockey League history, but left with their offense grounded.

The Islanders won, 2-0, backed by the 35-save performance of goalie Billy Smith, before a selfout crowd of 17,498 at Northlands Coliscum.

"I think we did everything we wanted to do," said Glen Sather,

the Oilers' president, general manager and coach, "but score." had been shut out in 198 games, dating to March 12, 1981 — when

### Wrestling in a Real World Apart

Los Angeles Times Service

MADISON, Wisconsin - John Irving's novels seem to be linked by common threads — bears, off-beat wrestlers and off-the-beaten-track hotels. The recent national wrestling championships here had one or two bears, a lot of characters and even a rather antiquated hotel, which was full of Irving author of "The World According to

Garp," would have been right at none weekling buff), even if there were no bears roller-skating in the hallways. Only an occasional wreskating in the hallways. And wrestlers are definitely dif-One of the characters in Irving's "The 158-

Pound Marriage" is a wrestling coach named Severin Winter. He could not talk without touching, and Madison was full of Severin Winters. Indeed, wrestlers are perpetually in motion, skipping rope or merely shuffling their feet, shrugging, bobbing heads, arms flopping at their sides as if they're treading unseen water.

"After my match," said Lee Kemp, who was to

win the 163-pound title, "I've gotta do my work."

After his match? It had to do with making weight. That is why wrestlers are so constantly in motion. If a wrestler, for example, is in the 1491/2pound class, that means he must weigh 149 pounds 8 ounces. A man at 149-9 no longer has to make weight because he is disqualified.

In the dining room at the Ivy Inn here, a motor

hotel across the street from a convalescent home, it was rare to find a wrestler having lunch or dinner. Breakfast was another matter. Breakfast could be transferred from body to sweat suit with sufficient bobbing, shuffling and rope-skipping. "One of the advantages of being a heavy-weight," said Bruce Baumgartner, the champion in that class, "is that I don't have to worry about

Baumgarmer, at 265, was one of the smaller beavies. In the championships, it was Baumgartner against the bears — Tab Thacker, Jimmy Jackson & Co. Their weights are estimated at between 300

Madison's native species of bear was Joe, the chef at the Ivy Inn. All of Irving's hotels have resident bears, and the Ivy Inn qualified. Joe is a large, garrulous chap who wears tent-size shirts and does not seem to stray far from his kitchen. In fact, at 5:45 A.M. one recent Sunday he was sound

by lase the night before. The competition had ended, and wrestlers tend to make up for lost time in terms of lood and beverage when there are no weigh-ins in sight. On the final day of this year's World Cup competition in Toledo, Ohio, the wrestlers survived their last weigh-in and headed for the dining room. Said the chef at that hotel:

They averaged six eggs, a half-pound of bacon, two hamburger paddies, a pile of potatoes and I don't know how much toast and juice apiece. They don't know now much toast and juice apiece. They cleaned out the kitchen."

That was a Sheraton Hotel with computers at the front desk, uniformed personnel, push-button telephones, elevators and antomatic front doors.

Garp would never have stayed there. But the lvy inn was perfect for wrestlers. It was more of a mom-and-pop place, like Garp's Hotel New Hampshire. Wrestlers seem to be more comfortable in down-home surroundings. Baumgartner, for example, was raised in New Jersey but went to college at Indiana State and oow lives in Stillwater, Oklahoma, where wrestling is a bit bigger than it was way back bome way back when.

The heartland of the country, to be sure, is the hotbed of wrestling, as if that part of the country can better accept and understand the basic simplicity of man-to-man confrontation. But don't try telling wrestlers bow simple it is. To them, the sport seems almost mystical. And complicated. "Consider a football team," said Chris Camp-bell, who won at 180%. "The linemen each have a

guy they have to block. The pass receivers have a pattern they have to run. The backs have a hole they have to hit. The quarterback has to see it all.

Wrestlers are all quarterbacks."

Are wrestlers unusual? Athletes bandage knees, right? Campbell bandages his right ear.

Or consider Doug Parise, who finished second to Bill Nugent at 149½: He lives in Philadelphia and collects butterflies. Or consider Joe Gonzales, the 1141/2-pound champion, who lives in Bakersfield, California,

difference do a few snakes make?" One thing all the wrestlers had in common was astonishment that a sportswriter had come to see them. They are the stuff of which novels, not sports stories, are written.

Little Joe the Snake Collector, he'd have been comfortable in the real world according to wres-

×.

pound champion, "are you doing here?" Only one other writer was around, a representative of the

But the islanders, landing an equal number of shots on goaltender Andy Moog, took the lead. Bob Bourne picked up Stefan Persson's blocked shot, slipped it across the slot, and Sutter was in front for an

utes. It was the second shutout he easy tap-in on the open right side. From there. Smith grew sharper. Smith turned in two excellent saves late in the second period. He stopped a rinklong rush by Paul Coffey at 14:59, pinning the de-fenseman's backhander against the right post. And, with 1:43 to go in the period, Smith slid across his crease and stopped Gretzky's at-

> seconds to play in the game. Kurri shot a pass across from the left side that Gretzky only had to tip in at the right post for a 1-1 tie. But Denis Potvin, anticipating the pass, prevented the score. "I saw the pass come across," said Potvin. "And I was just able to get

tempted stuff of a Jari Kurri pass.

Greizky was again foiled with 21

B piece of it to knock it wide."
The Oilers' best scoring chance 'I didn't get beat," said Smith,

### **ART BUCHWALD** A Hinckley Scenario **Under Gun Controls**

WASHINGTON — President mg audience of gun enthusiasts at everything checks out you can the National Rifle Association come back in two weeks and I'll Convention in Phoenix, Arizona, gift wrap it for you."

Wearing a bulletproof vest and surrounded by a phalanx of Secret Service men and local police officers, the president decried those who would take guns away from

the American people. Signs all over the hall where Reagan spoke warned the audience not to bring their guns to the rally. As a further precaution all those entering the building had to pass through metal detector booths, to

make sure they weren't armed. The president said he would never disarm decent law-abiding citizens, as plainclothes men kept 8 careful eye on the audience in the

He alluded to John W. Hinckley and said, "It is a nasty truth but those who seek in inflict harm are not fazed by gun control laws. I happen to know this from personal

The president failed to mention that Hinckley bought his gun from a Texas pawnshop in a state that has no gun control laws.

Let us assume, for Reagan's sake, that Hinckley went into the Texas pawnshop, and stiff federal gim aws were in effect.

"Con I help you, sir?"
"Yes, I'd like to buy a handgun that I could fit in my pants pock-

May I ask you why you want the the gun?" "I want to impress Jodie Fos-

"She's a very fine actress. Do you know her personally?"
"Sort of, She knows me. She'll know me more in a couple of

"There is nothing like a nice litthe handgun to impress the girl you really love."

"I want a couple of boxes of ammunition to go with it."
"Certainly. Why would anyone buy a gun without ammunition? Here's a beauty. I just bought it"I'm sorry, sir, but if you don't, I
from a man who wanted to trade can't sell it to you." up for something larger. It's only been fired once, at a neighbor."

Reagan addressed a cheer- to take your particulars and then if

"What do you mean checks

"We have to know if you have a police record or have suffered from a mental illness."

"What do you think - I'm crazy

"Of course not, sir. You look perfectly sane to me. But unfortunately the federal law no longer permits the dealer to decide who should have a gun and who shouldn't. Certainly 8 taw-abiding citizen like yourself can wait two weeks before impressing your girl-

"That's how much you know. Jodie isn't the type of girl who has all the time in the world to be impressed. I could lose her in the next two weeks."

"I understand, sir, but if I sold you this gun without checking you out, I could be fined and sent to jail. Believe me, it isn't easy for us dealers. I have many customers who come in here and when I tell them that have the dealers. them they have to be checked out before I can sell them a gun, I never see them again. It's killing my

"What do you want to know?" Why are you purchasing this

"I told you I want to impress my girlfriend."
"Couldn't you give me a better

reason?" "I'm going to Washington and I need it to protect myself against all the nuts walking the streets."

"That's better. Do you promise tn use it only in self-defense?"
"Do I have to?" "It makes it easier to get a per-

"Aw, the heck with it. I'm not going to answer a lot of damn fool

questions just because I need a "Stuff the gun. I'll skip Washing-ton and think of another way of

### Peter O'Toole

For His 'Second Coming,' He Says: He's 'Twice as Funny and

Twice as Crazy

By Judy Klemesrud New York Times Service

NEW YORK - Peter O'Toole is sitting in a Pla-za Hotel suite, chain-smoking Gauloise cigarettes in a black holder, sipping tea and talking about his "second coming." The words have a dual meaning, referring both to his controversial 1972 film, "The Ruling Class," which has been re-released, and

to his own life. The 50-year-old actor, whose heavily-lined face is a testament to well-publicized excesses, points across the room at an advertising poster for the film. "I helped write the copy," he says propelly. It reads: "Peter O'Toole is twice as funny and twice as crazy as before. The second coming of Peter O'Toole in 'The Ruling Class.' " The first time around, the film,

a biting satire about the English upper classes, got mixed reviews. "It's a film that was 10 years ahead of its time," O'Toole deahead of its time," O'Toole de-clares, "and I'm delighted that it's with the film "The Stunt Man." back. For me, it was a great pytotechnic of the '60s, a kind of summation of those years. It's peppered with things of the '60s, the slang, the jargon, the paranoia, the talking to the flowers.
And it was the first time in history that the middle and upper classes were being thumped on the heads by lumps of timber.

"Now that one has a bit of distance from the '60s, I think the film works better," he adds. "Since then we've had a great breakthrough in comedy, by peo-ple like Woody Allen and Benny Hill and the Monty Python mob. The sort of disturbing comedy that we did in 'The Ruling Class'

is much more accepted now."
But it is O'Toole's personal second coming that is the real story. He burst onto the international movie scene in 1962 in "Lawrence of Arabia," for which he won the first of his seven Oscar nominstions. Next came two more highly acclaimed films, "Becket" and

it seems, he could do no wrong professionally — even though word had filtered out that off the set be was a drinker, a brawler and a hell-raiser. "I was, after all, the son of an Irish bookmaker," he says now with a smile.

Then came the 1970s, when O'Toole's career and personal life went intn a tailspin. Suddenly the hits were outnumbered by clinkers. His beloved father died at 86. after being struck by a car. The actor underwent surgery for a long-time stomach problem that had developed into what doctors called "a sort of form of malignancy." A few months later, doctors wrongly told him he would be dead within the week from a virulent blood cancer. Then his wife of 2D years, the Weish ac-tress Sian Phillips, left him. O'Toole hid out for long periods of time at his home in Connemara, Ireland. He even stopped drinking.

· He won his sixth Oscar nomination for his portrayal of Eli Cross, a flamboyant, autocratic film director. Next came the eight-hour ABC television mini-series,. "Masada," in which he played a Roman general.

The biggest boost to his burn-again career came in last year's My Favorite Year," a comedy about the early years of live tele-vision, in which he played an aging, swashbuckling, alcoholie matinee idol named Alan Swann, who reminded many moviegoers of the late Errol Flynn. That earned O'Toole his seventh Oscar nomination, but he was so sure that he would not win that he spent the evening of the awards ceremony flying from New York

"I'm going home to see my real Oscar," he said, referring to his baby son, Lorean, who was born on St. Patrick's Day. Colored snapshots of the baby and his

The "completely concentric" O'Toole.

last year in Los Angeles, were strewn all over the coffee table: She's from a very old Yankee family in New Jersey," he said, "and I'm very proud to have an Irish-American son."

After "My Favorite Year,"
O'Toole made a CBS television
movie, "Svengali," based on
George du Maurier's 1894 novel,
"Trilby." Then he played Jack
Tanner in Shaw's "Man and Superman" in England, and filmed Shaw's "Pygmalion" in Turonto for cable television.

He views television as a "god-send. It's a way of doing high quality work and being paid very well for it. The whole cable market has opened up such a big field. This grisly business of wait-The Lion in Winter," and two mother, Karen Somerville ing around for a movie that may more nominations. In the 1960s, Leftwhich, whom the actor met or not get made, and then spending around for a movie that may

ing 16 or 17 weeks doing it, is not that much fun. One can do a couple of television movies in that time, and get similar remuneration, and do fine quality work."

Even when he was drinking, the actor said, he would never come to work drank or drink on the set. He says he gave up drink-ing completely after his stomach surgery, and now drinks mainly tea. "Booze is an outrageous tea. "Booze is an outrageous drug." be says, then adds with a grin, "but I don't regret one drop. I do, however, miss quite a few things that went on." Referring to the memory loss that eventually. the memory loss that eventually afflicts some drinkers, he said, That's the great snag of booze, oblivion. So sobriety's a real turnon for me; you can see what

you're doing." Another reason he gave up

drinking, he said, was that several of his former drinking buddles died, including Robert Shaw, Peter Finch and Laurence Harvey. "They did drop like flies, every-body, everybody, all young," he says sadly. "When Robert Shaw died — he was a sparring partner, we were forever competing against each other - it left a vac-

wwm, an abborrent thing." O'Toole said he regards "Law-rence of Arabia" as his best role of all. "It was a magnificent role, and a magnificent film, and it gave me the opportunity to spend two years with the cinema master of the 20th century, David Lean," he said. "The film was almost secondary to life. After all, how many young men get to live with Bedouins for a year?"

The slender, 6-foot 3-inch actor is next scheduled to play a cameo role in the film "Supergirl." But the role he would most like to play is King Lear. "I've been pre-paring for Lear all of my life," he said. "And after 'Man and Superman,' my longing for the theater has returned. I enjoyed it thor-

Does he prefer stage to movies and television? "It's charlish to say yes, but untrue not to," he re-plied. "It's the fountain. We're very lucky in the 20th century to be able to work in so many different forms. But the form I prefer is

the theater."

His two daughters by Sian Philips, Kate, 22, and Pat, 19, seem to have inherited this passion.

Kate is a graduate student in dramaturgy at Yale, and Pat is the assistant stage manager for the Peter Ustanov play, "Reetho-ven's Fenth," in England.

Abnost all of O'Toole's charao-

ters over the years have had ec-centric qualities, an image that he himself seems to cultivate.

"I'm told that eccentrics com sider themselves to be completely concentric. he says evenly. The not crazy, but I think everybeing close is." He legislis, takes a say by tea, then when I file with me and the craziness has been with me and in

to contribute to the pottiness."
"Besides," he adds, "it is only
in countries other than breland that I'm considered a little hit ontré. There, Pm considered a part of the landscape. My behavior is

De Kooning Painting Fetches \$1.21 Million

A painting by Willem de Kooo-ing, "Two Women," was auctioned for \$1.21 million by Christic's in New York. The winning bid was made by a New York art dealer on behalf of an unidentified collector. A spokeswoman said it was the largest price ever paid for a work by a living artist and the first post-World War II painting to sell for more than \$1 million. "Two Women, " an abstract work painted in 1954-55, had been part of Harriet Manchin Weiner's private collec-

Frank Stanton, president of CBS from 1946 to 1971, will join the President's Committee on the Arts and the Humanities, the White House announced. Stanton will succeed Nancy Hanks, who died Jan. 7 of cancer.

A nude scene in the Metropolitan Opera's performance of Verdi's "Macbeth" in Memphis, Tennes-see, touched off a brief protest from women scattered in the balco-ny who held candles to illuminate their bare breasts. When Cheryliyan Ross, playing the role of the witch Hecate, appeared on stage wearing only a G-string and rib-bons in her hair, at least nine lights flared in the balcony. But it was hard to tell in the darkened theater just how many protesters carried through with their threat of going topless. Except for a scattering of bravos, there was little reaction from the audience of about 3,000 at the Memphis auditorium. The protest was organized to focus at-tention on the city's anti-mudity ordinance. John Holt, the police director, had said the opera performance was not covered by the law because it was an artistic expres-

CBS-TV announced that "Archie Bonker's Place," starring Carroll O'Connor as the gruff bigot with a heart of gold, would not be on the network's fall U.S. programming schedule. Long the most controversial situation-comedy on the air, "All in the Family," the series original title, caused consternation and alarm when it made its debut in 1970 with racial slurs, religious commentary and sexist dialogue. But the comedy, the brainchild of the producer Norman Lear, won over a huge audience, which kept the show high in the ratings for more than a decade.

Official timekeeper of the Olympic Games in Los Angeles and Sarajeva

Light in weight, silley to the touch, yet as hard as steel. It is made of titansum, a corrosion resistant metal that made the grade in space experiments and is more at home on the moon than on earth. Its case is inlaid with 18 carat pink gold. The crown is screwed on and the sapphire crystal is treated against reflection. It is acid-and water resistant. Available for ladies and gentlemen.

Omega Seamaster Titane. Slightly out of this world.
